PICNIC TIME OVER

CHAUTAUQUAS HAVE TAKEN THE PLACE OF OLD-TIME EVENT.

TWO WILL HAVE THEM

Barnard and Parnell Will Hold Picnics This Fall—Chautauqua Season Closes August 17.

The Chautauqua season in Nodaway county is not yet over. While Graham, Barnard and Ravenwood have held their Chautauquas, there are still four more to be given in the county. Those that have been held were a big success in a financial and social way, and they all decided to hold another one next year.

The Chautauqua seems to be taking the place of fairs and picnics at these towns, as this year is the first year that a Chautauqua has been held in Nodaway county outside of Maryville and Burlington Junction. Heretofore, nearly every town had a picnic, but this year they were done away with.

The Chautauqua at Hopkins commences on Wednesday, July 30, and closes on August 3. It will be held in the Hopkins park, and the program is furnished by the Keith-Vawter system of Cedar Rapids, Ia. Some of the talent includes Judge Lee S. Estelle of Omaha, Hon. W. I. Nolan, Dr. Sumner R. Vinton, Dr. F. E. Hopkins, Fred J. Clark, the Drexler-Fox company, the Dollie McDonnell company, the Novelty Entertainers and the Venetian Guards band.

The Chautauqua at Burlington Junction opens on Thursday, July 31, and closes on August 4. The Chautauqua program is furnished by the Keith-Vawter system and is the same program as at the Hopkins Chautauqua.

The Clearmont Chautauqua comes next and the dates are August 9 to 14. This Chautauqua is put on by the business men of the town and the program furnished by the Jones system, the same bureau as furnished the talent at Graham, Barnard and Ravenwood.

The last Chautauqua to be held in the county is the Maryville Chautauqua, to be held from August 9 to 17. The program this year is exceptionally good and is the best one that has yet been secured.

Picnics are also to be held in the county at only two towns. Barnard will hold hers on August 7, 8 and 9. Parnell will hold one August 28, 29 and 30.

Resigned Barnard Pastorate.

Rev. J. Arthur Dillinger has resigned as pastor of the Christian church at Barnard, to take effect September 1. The reason Rev. Dillinger resigned his work at Barnard is that a new ruling has been made at Drake university, where he will finish the ministerial course the coming year, requiring them to be in their classes on Monday morning. His trip to Barnard to preach on Sunday would cause him to miss Monday's classes, and to miss that day would be counting a point each time off his grade. He will get the pastorate of the church at Blockton, Ia., however, as he can easily attend to that appointment.

A Series of Lectures at Normal.

Prof. John A. Whiteford, superintendent of the St. Joseph public schools, is giving a series of lectures at the Normal this week. His first talk was Monday morning, and the second one was given this morning at Normal assembly. These lectures will continue throughout this week on every morning. In the afternoon at 4 o'clock Prof. Whiteford is conducting a round table discussion, and they will also continue throughout the week.

A marriage license was issued late Monday afternoon by Recorder Wray to Lewis G. Johnson and Nellie E. Weathermon, both of Burlington Junction.

Mrs. Clarence Green and Mrs. W. A. Loch and children returned Monday evening from a visit since Friday at Pickering with Mr. and Mrs. H. W. Smith.

THE COX FUNERAL.

Many Friends Attended Services in Memory of Miss Helen Cox—Girl Friends Were Pallbearers.

The funeral services for the late Miss Helen Cox, who died Sunday forenoon at the home of her sister, Mrs. M. C. Thompson, one mile north of the Burlington depot, were held Tuesday afternoon at 3 o'clock at the Thompson home, and were conducted by Rev. S. D. Harkness of the First Presbyterian church, in the absence of Miss Cox's pastor, Rev. Gilbert S. Cox of the First M. E. church.

A quartet composed of Mr. P. O. Landon, Mr. John Mutz, Miss Ada Clayton and Mrs. Charles Moore gave several numbers.

Interment took place in Miriam cemetery. The pallbearers were the girl friends of Miss Cox during her residenc in Parnell a few years ago, and were Miss Gertrude Wright, Mrs. Lester Bennett, Miss Ethel Muse, Miss Ruby Bishop, Miss Blanche Bloomfield and Miss Grace DeFreece.

All the members of the family were present at the services and some out-of-town friends, including Mrs. George Thompson of Tarkio, Mrs. E. J. Gee and Mrs. I. J. Lapsley of Burlington Junction.

TOUR TO BE MADE IN AUGUST.

An Automobile Run to Be Made by Maryville People to Advertise the Chautauqua.

An automobile run will be made during the first week in August by the business men and citizens of Maryville for the purpose of advertising the Chautauqua to be held in this city, commencing August 9. Every town in the county will be visited, and also several towns in the adjoining counties. The run will take in all towns within a radius of thirty miles of Maryville.

The schedule for the tour is being arranged by the Commercial club and will be announced within a few days. The band will be taken along, and at each stop music will be given.

The run will be made in the evenings and it will take five or six evenings to visit each place in this section. At this time of the day it is much more comfortable for riding, and then more can be able to go, as the day's work will be over. John Sewell and Frank P. Reuillard are in charge of the tour.

STATE FAIR PREMIUM LISTS.

County Clerk Demott Has a Number of Copies of State Fair List.

County Clerk Demott has just received a number of copies of the Missouri state fair premium list for 1913. These are for free distribution in the county and any one may secure them by calling at the county clerk's office, or writing the secretary of the Missouri state fair, Sedalia.

The premium list shows increase in premiums over previous years, which means that the state fair is growing. One especially noticeable thing in this year's premium list, on page 8, is the establishment of a boys' state fair school. This new feature promises to be one of great value to every part of the state, as one boy from each county will be entertained by the state fair and will get one week of instruction and practical training in the most up-to-date methods of farming and stock raising. Many other features have been added. The dates for the state fair this year are September 27 to October 3.

SHIPPED OUT THIRTEEN CARS.

Clearmont Has Sent Out That Many Up to Tuesday—Cars Hard to Get.

Clearmont has already sent out thirteen cars of wheat up to Tuesday, and that is the first week's record. There is a shortage of cars and the people up there are already trying to secure more cars to ship the wheat out.

The wheat in the Clearmont vicinity is averaging 35 bushels to the acre. Tom Wallace had an average of 37½ bushels to the acre out of a 40-acre field.

Annual Meeting August 3.

The annual meeting and basket dinner of the Christian church of Pickering will be held the first Sunday in August. This event is always a home-coming of Pickering people, and is as largely attended as any meeting of the kind in the county. The program will be announced soon.

Mr. and Mrs. Earl King of Savannah returned home Monday from a visit with Mrs. King's parents, Mr. and Mrs. J. J. Bertram. Mrs. King had been here two weeks and Mr. King came to accompany her home.

Miss Bertha Goforth of Bolckow and Miss Donna Robinson of Barnard returned home Tuesday morning from a few days' visit with W. E. Goforth.

HIRTH MAY SPEAK

CLUB WILL MAKE ENDEAVOR IN BEHALF OF BONDS.

AN ACTIVE CAMPAIGN

A Determined Effort Will Be Made to Carry Road Bonds in Polk Township August 12.

The good roads election of Polk township to vote on a bond issue of $50,000 wil be held on Thursday, August 14, and the Commercial club is now arranging for an active campaign in behalf of the proposition. Probably several speakers, who are noted road men, will speak in various parts of the township before the election, and also on election day there will be many workers around the polls in the interest of the issue. Everything is to be done to carry the proposition.

No opposition at this time has developed against the bond issue. Of course, there will be several against it. It is necessary to have a two-thirds majority for the issue to carry.

The Commercial club is now trying to secure Wm. Hirth of Columbia, Mo., to come to Maryville for a good roads speech on Tuesday, August 12, or two days before the election. The talk will probably be given in the afternoon of that day at the Chautauqua before the regular program. Mr. Hirth is president of the State Federation of Commercial Clubs.

The Commercial club is also going to co-operate with Governor Major in making Wednesday and Thursday, August 21 and 22, good roads days, a success in this county. They will try and get everybody they can to spend these two days on the roads.

TO HAVE ONE NEXT YEAR.

Ravenwood Also to Have Another Chautauqua as First One Was a Success.

The closing session of the Ravenwood Chautauqua Monday night was by far the best of the season, and the people became so enthusiastic that they immediately guaranteed another Chautauqua next year. Sixteen of the business men signed a contract for a Chautauqua to be held some time between July 25 and August 15, 1914, and 150 tickets were pledged.

Hon. Charles J. Hall was the lecturer last night, and he proved as popula, if not more so, at Ravenwood as he did at Graham and Barnard. The people of Ravenwood were still talking today of the good things he said in his lecture.

Went to St. Louis.

L. B. Tracey of the Alderman-Yehle dry goods store went to St. Louis Sunday night, where he will spend the week with the big shoe stores of that city, getting the most reliable information possible in regard to the shoe business, and will buy the new stock of shoes for the store. Mr. Tracey will have charge of this new department at the Alderman-Yehle store.

ARCTIC SHIP DIANA.

MacMillan's Expedition to Explore Crocker Land Is Halted by Wreck of Ship.

Photo by American Press Association.

The steamship Diana, having on board the Donald MacMillan expedition, bound for Crocker Land, went ashore at Barge point, forty miles west of Battle harbor, in the Belle Isle strait. According to a message sent by MacMillan, she probably will be a total loss. The Stella Maris, a Newfoundland revenue cruiser, has gone to the assistance of the Diana. No details of the wreck have been received.

WILL SHE APPEAR?

MRS. CARRIE YOUNGER'S TESTIMONY WANTED IN CASE.

TAKING DEPOSITIONS

Financier's Wife Served With Subpoena to Come to Maryville Goes On Sudden Visit to Iowa.

Mrs. Carrie Younger, wife of Joseph Younger, the noted Elmo financier, who arrived in Elmo about a week ago for a visit with her parents, Mr. and Mrs. B. C. Hallsa, seems to have taken a hurried departure from the town last week.

The cause of Mrs. Younger's departure, it is said, was that she did not want to have any of the attorneys take her depositions in the many cases that are still on the Nodaway county docket against Younger and herself.

Mrs. Younger was served last week at Elmo with a subpoena to appear at Maryville on Monday, July 21, for the purpose of taking her deposition in the Younger cases. She acknowledged service on the subpoena. Mrs. Younger didn't appear Monday, and communication with Elmo said that she had left that town. So when Mrs. Younger didn't appear, Sheriff Wallace was ordered to go after her. He went to Elmo Monday evening and the parents of Mrs. Younger told him that she had gone to Silver City, Ia., on a visit and would be back soon. But Mrs. Younger hasn't shown up, and many attorneys here are of the opinion that she will not show up. Efforts have been made for the past month or two to get the depositions of Mrs. Younger and her husband, but they have been fruitless. But the attorneys here are going to still keep after them.

The depositions taken Monday were before Notary M. A. Peery, and the following attorneys were in attendance, representing one or more of the many suits against Younger: Shinabargar, Blagg & Ellison; Cook, Cummins & Dawson; M. E. Ford, Ellis G. Cook, and an attorney from Atchison, Kan., representing Mr. Simmons of the First National bank of that place. The depositions will continue to be taken all this week.

B. C. Hallsa of Elmo, step-father of Mrs. Younger, came to Maryville today to have his deposition taken. He didn't have anything to say for publication.

It is said at Elmo that Mrs. Younger is on her way to her home in Calgary, Canada. She left Elmo Sunday evening. It is understood that Mr. Younger is a day laborer at Calgary.

IMPROVEMENT AT HOSPITAL.

A Pavilion and Cement Driveway Being Built On the South Side of This Splendid Building.

An improvement is being made at St. Francis hospital that will not only be a great convenience, but will add much to the beauty of the place. A wide cement driveway is being constructed from South Saunders street along the entire south side of the building for the convenience of automobiles and other vehicles that have need of driving to a close entrance to the hospital.

In addition to this a beautiful pavilion of cement blocks and columns of the same material is being built on the south side of the driveway. It will serve as a lovely resting place for the Sisters or anyone at the hospital who may wish to rest there. It will have an ample roof.

This provision of St. Francis hospital for a resting place should be a rebuke to the rest of the town for not providing a place for people who need a rest room uptown.

Will Return to Washington.

Mrs. George E. Dew of Toledo, Wash., who has been visiting her brother, Judge J. H. Sayler, and family in this city for several days, went to Hopkins Monday to spend a few days with her father, J. M. Sayler. Mrs. Dew's children are now all in Washington excepting one son, Ray, at Holden, Mo. Two sons are in the newspaper business and one son-in-law is a naval instructor at Bremmerton.

Home From Vacation Visit.

Miss Mary Fordyce returned Tuesday from a three months' visit in the Ozarks. While away she visited her sister, Mrs. D. J. Seipert of Pierce City, Mo., and at Joplin with her father, T. S. Majors.

Were in the City.

A party composed of J. A. Kavanaugh, John McDowell and P. L. Trapp of Graham and B. A. Trapp of San Diego, Cal., were in the city Tuesday.

MORE TENTS THIS YEAR.

Chautauqua Campers Are Getting Their Orders in Early for Quarters in White City.

More tents have been ordered and paid for already this year than had been up to the opening day of the Chautauqua last year. This unusual run on the large number of tents which Manager Landon has ordered for this year has about exhausted the supply in certain sizes. The last order for tents will be sent in next Saturday, July 26, and persons who wish a tent of a particular kind should send in their order at once to insure its being filled.

The outlook bids fair for the largest and gayest crowd of campers ever assembled at our Chautauquas. The camping idea has grown rapidly here in the last three years, and last year 100 tents sheltered five times as many people. These "outers" got more good out of the Chautauqua than anybody else, and, to judge from the way tents are being ordered this year, they must have passed along word of their good times.

Last year's camping activities were not spoiled by the rain, either, which fell for five of the nine days. The tents were dry. Only one of all the tents rented by the Chautauqua management leaked, and it was replaced with a new one. The grounds are high, and the water drained away from them continually. The tenters kept on tenting and having a good time, and the only effect the rain had on them was to make them pity the people who could not attend because the muddy roads made it too inconvenient to get to the grounds.

Under such conditions camping in the Normal park is a safe and sure thing any year, and, with the increase in rented tents and private tents in town this year will be no exception.

OFF ON VACATION TRIP.

Miss Alicia Keeler and Miss Frances Keeler Left Tuesday for Several Weeks' Outing in the East.

Miss Alicia Keeler of the Maryville high school faculty, and Miss Frances Keeler left Tuesday evening on a four or five weeks' trip to New York City and other eastern points. They will take the water trip through Quebec, and will be met in New York by their brother, Lieutenant John Keeler of the coast artillery stationed at Fort Wright, on Long Island, and will be his guests for several days.

They will also visit their sister, Madame Lillie Keeler, at Sacred Heart convent in Rochester. In Rochester, N. Y., they will be the guests of a cousin, Judge P. J. Keeler, who is judge of the police court of Rochester. Judge Keeler was a young man of Nodaway county a few years ago, having grown up near Conception. He went east to study law and the offerings for the practice of his profession there were too alluring to turn down and the success that is now his shows he did not make a mistake. Judge Keeler is a namesake of his uncle, the late Patrick J. Keeler of Maryville.

SUING FOR HIS CAR.

H. Glenn Curtiss of St. Joseph Brings Replevin Suit Against Frank J. Perry.

A replevin suit was filed Tuesday in Circuit Clerk Rathbun's office by Attorney M. E. Ford for H. Glenn Curtiss of St. Joseph against Frank J. Perry of this city. According to the petition the defendant has a 4-cylinder 40-horsepower 1911 model Chalmers roadster which belongs to the plaintiff. Possession of the machine and $100 damages are asked for by Mr. Curtiss. The suit will come up at the September term of court.

Are Here for Few Days.

Miss Lois Halley of this city and Mrs. A. C. Wiseman of Amazonia came Tuesday from Burlington Junction, where they have been visiting Mrs. E. E. Bever, and will spend a few days here before Mrs. Wiseman returns home. Miss Halley is spending the summer at her grandmother's home, recuperating from the wear and tear of study and teaching and getting ready for her coming year's work at the Missouri state university.

Will Spend the Summer.

Mrs. Mollie Porter went to St. Joseph Tuesday morning for a vist with friends and will remain until fall with friends and relatives at other points near St. Joseph. Mrs. Porter has leased her residence on South Main street to Mr. and Mrs. John Wells.

Hurt in Threshing Machine.

Edward Van Pelt of Quitman was caught between the engine and separator of a threshing mahcine while at work Monday and severely bruised. No bones were broken, and, while his hurts are not serious, he will be unable to work for several weeks.

GOVERNOR WILL DON OVERALLS ON GOOD ROADS DAY.

WOMEN PROVIDE FEED

Everybody in the State Asked to Help in Work of Making Good Roads for Missouri.

Governor Major issued a proclamation Monday setting apart Wednesday and Thursday, August 20 and 21, as public holidays, to be known as "Good Roads Days."

Every able bodied man in the rural districts and cities of the state is to put in these days working on the public highways.

The governor asks that all ordinary business be suspended, and that wherever possible the men put in full time on the permanent improvement of the roads, either dragging, ditching, or making culverts or bridges, or whatever will lend to accomplish the greatest good.

Every county court in the state is asked to issue a supplemental proclamation and make provisions for work in each and every neighborhood of the state where there are highways. The press of the state and citizens generally are called upon to aid in seeing that the proclamation is carried out to the fullest possible extent.

The women in the rural districts are asked to aid by furnishing the workers with lunches, and encouraging them with their presence and good cheer. The commercial clubs and the booster organizations are called upon to render every assistance in their power.

The governor estimates that work approximating one and a half million dollars in value will result.

"Nothing is more desirable," the governor says, "than good highways and nothing will pay a larger dividend in the future."

Governor Major will take the initiative and put in two days on some highway of Cole county. He has made arrangements for taking 100 convicts from the penitentiary and putting them to work for the two days on some road near Jefferson City. They will be under charge of prison officials, and their work will be directed by the county highway engineer.

The governor will expect every state official and every employe of the state government who can be spared from his post to put in two full days at work on the roads.

Photographs for the moving picture companies will be at many points in the state to take photographs of the volunteer workers, to the end that the result of a state-wide movement of the kind may be presented through the moving picture shows to the country in general.

Governor Major expects to use a pick, shovel, or whatever tool may be most available himself. He does not want any loafers around watching more industrious persons carrying into effect the spirit of his proclamation.

DEATH OF EDGAR BREDWELL.

A Former Resident of Maryville Died at Canton, O., July 13.

Edgar Bredwell, a former resident of Maryville, died Sunday, July 13, at his home in Canton, Ill. Death was due to a complication of troubles, beginning with a hemorrhage of the lungs in February. He lacked a few days of being 53 years old at the time of his death.

Mr. Bredwell lived in Maryville some twenty years ago. He was assistant postmaster under John Ham during the first year of Willebald Yehle's term. While here his first wife, Mollie Brokaw, died. Their two children, Mrs. Guy Spenny of Ottawa, Kan., and Mrs. T. Clyde Allen of Hiawatha, Kan., survive them. Mr. Bredwell is also survived by a second wife and three children, who live in Canton.

To Leave on Vacation Trip.

Eldon Irvin, an employee in the postoffice, will leave Wednesday morning for a ten days' visit with his brother, Edwin Irvin, at Watertown, S. D. He intends to spend part of the time fishing at the lakes in southern Minnesota. Mr. Irvin has a three weeks' vacation from the postoffice.

Miss Annie Kimple and Mrs. A. S. Neely of Bolckow were in Maryville shopping Monday.

LAW PREVENTS HAULING.

The Fine for Hauling Intoxicating Liquors Same as That of Party Selling the Stuff.

Recently in Adair county, of which Kirksville is the county seat, a suit was brought to enjoin the railroads from hauling liquor into the county, and the county won the suit and the railroads were enjoined from hauling the stuff in that county. Now in that county, intoxicating liquors are being hauled by wagon, automobiles and other vehicles from adjoining outside points. The prosecuting attorney of that county is making an effort to put a stop to it. According to the law a penalty as serious as there is for selling it illegally is prescribed for hauling liquor into any dry county. Kirksville is dry, and also the county outside of Kirksville.

Here are four sections of the Missouri law which apply:

"Section 7226—It shall be unlawful for any person or persons, not a licensed dramshop keeper or by law authorized to sell liquor as a wholesaler, to order for, receive, keep or deliver, as the agent or otherwise, of any other person, intoxicating liquors of any kind."

"Section 7227—No person shall keep, store or deliver, for or to another person, in any county that has adopted the local option law, any intoxicating liquors of any kind whatsoever."

"Section 7228—Nothing in the two preceding sections shall be construed to prohibit any person from ordering liquor for his own or family use, where such liquor is sent direct to the person using the same."

"Section 7229—Any person violating the provisions of the three next preceding sections shall be deemed guilty of a misdemeanor, and find not less than three hundred dollars nor more than one thousand dollars, or imprisoned in the county jail for not less than three months nor more than one year, or both such fine and imprisonment."

RAVENWOOD ITEMS.

The Chautauqua closed last night and the session was a very successful one. The Ravenwood band gave excellent music during the Chautauqua. It was decided to hold another Chautauqua next year and the business men will have charge of it.

John Collinsworth, east of town, is dangerously sick. He is not expected to live.

The wheat crop in this section is averaging big. The average will reach between 30 and 35 bushels to the acre.

Deafness Cannot Be Cured

local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

RESTORED TO ENTRY.

Six Million Acres of Withdrawn Lands Back in Public Domain.

Six million acres of withdrawn public lands were restored to entry during the months of May and June on approval by the secretary of the interior of the recommendations of the United States geological survey. This action was the result of examination and classification of the lands by the survey, those restored either having been found not to be valuable for power sites, reservoirs, or having been definitely valued as coal lands, and rendered available for purchaser under the coal land law.

Of these lands relieved from coal withdrawal nearly two and a half million acres were in the state of Colorado as water power sites.

In Idaho 1,100,000 acres of coal and phosphate withdrawals were classified and destored, and for water power sites approximately 10,000 acres were withdrawn and about the same acreage restored.

In Montana 250,000 acres were restored as being non-coal bearing and about 1,000 acres as not valuable for water power sites, while about 150 acres were withdrawn for that purpose.

In North Dakota nearly 1,400,000 acres in coal withdrawn were classified and restored.

In Oregon approximately 75,000 acres were restored as non-oil bearing lands and about 12,000 acres were withdrawn for power or reservoir sites.

In South Dakota over 300,000 acres were relieved from the coal withdrawal.

In Utah about 1,500 acres were withdrawn for water power sites.

In Wyoming over 47,000 acres of coal withdrawals were reopened to entry and purchase; approximately 87,000 acres were withdrawn for classification as to whether they are oil bearing lands, and about 304,000 acres were restored as non-phosphate lands.

For all states the total withdrawals during the months of May and June were over 116,000 acres, and the total restorations were over 6,000,000 acres.

The total outstanding withdrawals on July 1 in all the public land states amounted to 68,609,289 acres, of which more than fifty-eight million acres are in coal land withdrawals.

These lands are held pending classification by the geological survey, and as rapidly as they are either valued and placed on sale (as in the case of coal lands), definitely reserved pending appropriate legislation by congress to provide for their disposition (as in the case of potash or phosphate lands) or held subject to development under departmental regulations (as in the case of water power or reservoir reservations); or if they are found to be non-mineral in character they are restored to public entry. This work of classification and valuation is being prosecuted by the geological survey as rapidly as the appropriations provided by congress will permit.

WEIGHT TO BE INCREASED.

Parcel Post Packages Can Now Be 20 Pounds—Rates to Be Lowered.

Plans for the extension, improvement and reduction in rates of the parcel post were announced Saturday by Postmaster General Burleson. The changes, which are to become effective August 15, include an increase from 11 to 20 pounds in the maximum weight of parcels; a material reduction in the postage rates in the first and second zones, and the abandonment of the parcel post may as a means of computing rates, and the substitution for it of a rate chart individualized to every postoffice in the United States. The plans contemplate the purchase of a large number of automobiles to be used exclusively for the delivery of parcel post matter.

While, for the present, the maximum weight limit of twenty pounds and the reduction in rates will apply only to the first and second zones, from any given postoffice—a distance of about 150 miles—the changes directed today constitute the first long step toward a universal extension of the system and a general reduction in the rates of postage on parcel matter.

Misses Marjorie and Geneva Wilfley gave a chafing dish supper Tuesday evening. The evening pleasure began with a theater party at the Empire, luncheon being served later, with music and games. The guests were Misses Dale Hoffman, Glenn Hotchkiss, Hildred Hanna, Mildred Robinson, Messrs. Winifred Hawkins, Clarence Perry, Herschel Colbert, Edward Gray, Forest Ralston of Shenandoah, Ia.

Recital by Music Class.

Miss Eva Davis went to Bolckow Tuesday morning for her usual music class study. Twelve of Miss Davis' pupils gave a successful program Friday night. A very pleasing feature of the recital was an impromptu number by the guest of the evening, Miss Cleo Patra Wood. Those on the program were Misses Edith Shaver, Clara Anderson, Pauline Clare, Hazel Schildknecht, Mildred Carter, Norma Hartley, Marjorie Shaver, Mary VanMeter, Lorene and Cecil Bowman and Master L. J. Hanna.

Friday Evening Dinner.

Mr. and Mrs. Florian Gex of near Graham entertained at dinner Friday evening Miss Marie Brink of Maryville and Miss Helen Burris of near Graham. The young ladies remained their guests until Saturday evening, when they were invited to the home of Mr. and Mrs. Will V. Mountjoy for supper, where plates were laid for Miss Marie Brink, Miss Burris, Mr. and Mrs. Florian Gex and children, Miss Lorretta Gex, Miss Bettie Gex and her guest, Miss Exia Burris of St. Joseph, and Mr. Harold Bellows of Maryville.

A Guest at Two House Parties.

Miss Lola Wright left Tuesday morning for Cosby, Mo., to attend the house party to be given by Miss Edith Anderson, who attended the high school here last year. Miss Wright was joined at Bolckow by Miss Nellie Knappenberger, who will be another guest. Miss Anderson will return with her guests Friday night to attend a week-end house party to be given by Miss Knappenberger. Other guests at this house party will be Messrs. Aubrey and Virgil Lyle of Maryville and Robert Wolfers of Hopkins.

Motor Party From Hopkins.

Mrs. F. B. Honroe of Hopkins was the hostess and chauffeur of a motor party to Maryville Monday afternoon, with luncheon at Reuillard's cafe. Her guests were Mrs. F. P. Woodward and son of Villisca, Ia., who are visiting Mrs. Monroe; Mrs. Bess Monroe Goodson and her guest, Miss Marie Insobersteg of St. Joseph. The members of the party were callers at the home of Mrs. Woodward's cousin, Judge J. H. Sayler, during the afternoon. Miss Insobersteg, who has been Mrs. Goodson's guest for a week, left on the Burlington train for her home.

Visiting Maryville Relatives.

Miss Helen Dunn of Bolckow and Miss Dorothy Dunn of Chicago arrived Tuesday noon and are guests of Mr. and Mrs. James H. Saunders. They will also visit Misses Geneva and Marjory Wilfley and other Maryville relatives and friends.

Met His Grandsons.

J. B. Thompson of Hopkins came to Maryville Tuesday morning to meet his grandsons, Linn and Harold Black of Omaha, who have come to visit their grandparents. Mr. Thompson was accompanied by another grandson, Fay Black of Hopkins.

"Master Cracksman," two reels; "A Victim of Circumstances," at the Star tonight.

Mrs. W. A. Spangler and daughters of Pickering returned home Tuesday from a visit at Burlington Junction with her mother, Mrs. Mary Yardley. Mrs. Spangler underwent a surgical operation at Ensworth hospital several weeks ago and has fully recovered.

Mrs. F. H. Lorton returned to her home in Moberly Monday from a several weeks' visit in Maryville with her sister, Miss Mabel Blackwell of the Parisian millinery store.

J. H. VanHorn, custodian of the First Christian church building, went to St. Joseph Monday evening for a week's visit with his sons, Fred and Wiley VanHorn.

Mrs. Elizabeth Cunningham of Pomona, Cal., who has been a guest at the home of Mr. and Mrs. G. W. Long, left for her home Tuesday morning.

Neoma and Harry Barton returned to their home in St. Joseph Monday evening from a visit with their grandmother, Mrs. Louise Barton.

Peter Fehl of Barnard and Misses Edith, Elma and Myrtle Fehl and John Fehl were Maryville visitors in their car Monday.

Mrs. Jack Pennington visited in Pickering Monday afternoon with her husband, who is employed there.

Mrs. T. K. Wray and daughter are visiting near Pickering with Mrs. D. A. Appleby and W. H. Wray.

The Lenox Torrid Zone Steel Furnace

Has been on the market 19 years and I have installed them 17 of the 19 years. That is a long time to stick to one make of furnace, and, of course, there is a reason. Experience has proven the **Torrid Zone Furnace** the best.

It consumes less fuel and produces the most heat, has the greatest amount of radiation and delivers more heat to the hot-air circulating chamber than others in the same length of time.

Take note of the Torrid Zone construction:

The furnace shell—one piece of steel, the top, bottom and feed-door frame is of steel and riveted gas tight with wrought steel rivets, driven home with phenumatic riveters.

The radiator is hung to the smoke outlet on a wedge joint, the more the heat expands the joint the tighter the joint becomes.

The dividing flue extends to within 8 inches of the bottom, cousing the heat to travel 3 times the length of the radiator before escaping to the flue.

These are a few of the many reasons of its superiority. The one in our south window is a life size. Bring in your plans and let us furnish you estimates on heating the home.

Wild Oats.

A man engaged himself to a farmer to do farm work. The first morning after his arrival he was awakened by the farmer at three o'clock in the morning with the injunction that it was time to get up.

"What time is it?" inquired the man.

"Three o'clock," said the farmer.

"Why get up at this hour?" said the man.

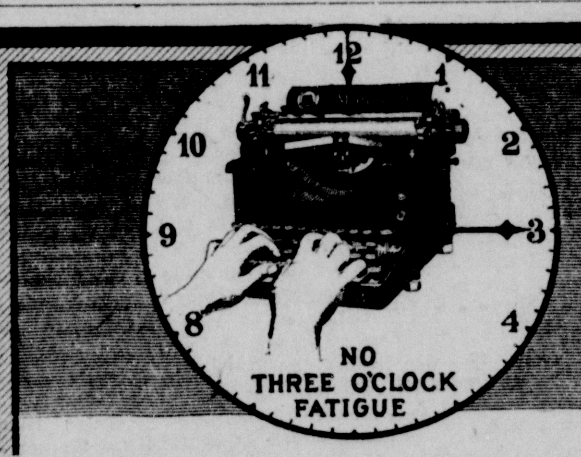
"We must get them oats in today," said the farmer.

"Are they wild oats?" inquired the man.

"No," said the farmer, "they are not wild oats."

"Then," said the man, "if they are not wild, what in the thunder is the need of sneaking up on them in the night? they'll be there in the morning."—Picked up.

Mrs. F. E. Bloomfield of Parnell spent Sunday in Maryville with her daughter, Miss Blanche Bloomfield of the State Normal.



WITH the ordinary typewriter the day's work usually begins to tire the operator by three o'clock; the constant strike, strike, strike on the usual heavy-touch machine shows its fatiguing effect in mid-afternoon. But when the operator has the advantage of

Monarch *Light Touch*

there is neither *three o'clock* fatigue nor *closing hour* fatigue. The Monarch operator doesn't *hammer* the keys, she *touches* them. The mechanical principle exclusively incorporated in the Monarch completes the impression. A feathery touch *starts* it—therefore strength isn't called for and fatigue doesn't follow.

Letters written on the Monarch Typewriter are uniform in spacing, alignment and *color*

In addition to the Monarch Light Touch, and the exclusive Monarch Rigid Carriage feature, every other important improvement of the modern typewriting machine, such as Back Space Key, Two-Color Ribbon Shift, Contained Tabulator, etc., will also be found in the Monarch.

Let us demonstrate Monarch economy of strength, time and money.

PREDICT END OF HUERTA REGIME

Situation in Mexico is Discussed at Washington.

CONFLICT TO BE DECIDED SOON

Reaches Point Where It Must Be One Way or Other—Ambassador Wilson's Coming Is Awaited—Refuses to Do Any Talking.

Washington, July 22.—Reports of conditions surrounding the Huerta government in Mexico have put administration officials in an attitude of keenest apprehension toward the situation there. Arvices which officials believe to be perfectly trustworthy seem to indicate that the strife between the Huerta regime and the revolutionary elements is nearing a point where some definite conclusion is to be reached.

Information of this situation when permitted to be known was coupled with the authoritative statement that the United States was making no additional naval or military preparations. Reports of an impending collapse of the Huerta regime are being talked over freely in official circles.

PRESIDENT HUERTA OF MEXICO.

Meanwhile President Wilson is awaiting the coming of Ambassador Henry Lane Wilson, hurrying north from Mexico City, to make a first-hand report of conditions. His reports will be compared with those President Wilson has received from other sources. Secretary Bryan, who has canceled some of his lecture dates that he may return to Washington Friday, will participate in the conference.

Ambassador at Havana.

Havana, July 22.—The American ambassador to Mexico, Henry Lane Wilson, arrived here from Vera Cduz on the steamer Mexico. On account of extreme weariness, the ambassador decided not to come ashore. He will proceed by way of Key West today to Washington. He declined to discuss Mexican affairs or the object of his visit to Washington.

ALL TO WORK ON HIGHWAYS

Missouri Will Have Good Roads Holiday Aug 20 and 21.

Jefferson City, Mo., July 22.—Governor Major issued a proclamation setting apart Wednesday and Thursday, Aug. 20 and 21, as public holidays, to be known as "Good Road days."

Every able-bodied man in the rural districts and cities of the state is to put in these days working on the public highways.

The governor asks that all ordinary business be suspended and that wherever possible the men put in full time on the permanent improvement of roads, either dragging, ditching or making culverts or bridges, or whatever will accomplish the greatest good.

The women in rural districts are requested to aid by furnishing the volunteer workers with lunches and encouraging them with their presence and good cheer. The commercial clubs and the booster organizations are called on to render every assistance in their power.

The governor estimates that work approximating more than $1,000,00 in value will result.

Fukien Province Joins Revolt.

Washington, July 22.—Fukien province has seceded from the Chinese republic, according to a dispatch to the state department from Consul Fowler at Foochow. Fukien borders on Kiangsi and Kwanktung, the two provinces which already have thrown off allegiance to the Peking government. The legation at Peking reports that the local government of Canton proposes to send 15,000 troops north within a week to engage the government forces.

Given Twelve Years for Murder.

Los Angeles, July 22.—James L. Murphy, formerly a Minneapolis policeman, convicted of second degree murder for the killing of Mrs. Irene Mattie Smith, a chorus girl, was sentenced to serve twelve years in the penitentiary at San Quentin.

DENIES STORY TOLD BY MULHALL

Nelson Says He Never Had Any Conversations With Lobbyist.

DID NOT INTRODUCE CLAPP.

Minnesota Senator Doesn't Remember Talking About Trust Law Amendment—Colleague Cannot Remember Ever Meeting Field Agent.

Washington, July 22.—Two senators, Nelson and Clapp of Minnesota, took the stand before the committee of their colleagues investigating the "lobby" and denied the truth of the statements made by Martin M. Mulhall, former political worker, accelerator of congressional opinion and all-around field worker for the National Association of Manufacturers.

In letters read into the record Mulhall told of conversations with Senator Nelson—a member of the lobby committee—in relation to the rejection early in 1909 of a bill amending the Sherman anti-trust act by a senate subcommittee of which Mr. Nelson was chairman. Mulhall wrote to F. C. Schwediman, secretary to James W. Van Cleve, president of the association, that he had seen Senator Nelson and the senator had told him what had transpired in his subcommittee.

Introduced to Clapp.

He swore on direct examination by Senator Cummins that Mr. Nelson had suggested that the association send a copy of the subcommittee's adverse report on the bill to the president, Mr. Roosevelt. In one letter Mulhall spoke of being introduced to Senator Clapp by Mr. Nelson and of talking with both men about a recent decision under the Sherman act.

Questioned closely by Senator Cummins, Mulhall first swore he had been told by Mr. Nelson what had occurred in the committee, even to how its members had voted on the proposed amendment; pursued further, he agreed that possibly he had not received such information, and then switched again and declared that if he had reported that he had received such information, it must be correct.

Doesn't Recall Seeing Mulhall.

"I have no recollection of seeing Mr. Mulhall or talking to him about this bill and I certainly would not have talked to him about what transpired before the judiciary committee," said Senator Nelson. "It is possible that he may have stepped inside of my office and gotten them from my clerk. Mr. Hicks, my clerk, says that he cannot recollect ever having seen Mulhall in our room. Ever since Mr. Mulhall appeared here before the committee I have been racking my brain to think or recall if I ever saw him or had a talk with him. There is a possibility that I may be mistaken. I understand that Mr. Mulhall had a mustache then and perhaps that may account for the fact that I do not recognize him now."

"I have not the slightest recollection of ever meeting Mulhall and certainly I have no recollection that Senator Nelson introduced me to him in his room," swore Senator Clapp.

Mulhall said that former Representative Watson of Indiana was employed in 1908 while a member of the house to help "put through" a tariff commission bill at a retainer of $500; $250 a week and $10,000 if he got the measure through congress. Mulhall did not say who was to pay.

TEXAS OIL. CASE ENDED

Hundred Million Penalty Suit Settled for Half Million.

Greenville, Tex., July 22.—The Texas $102,000,000 oil penalty suit was unexpectedly settled when the Standard Oil company of New York, one of the defendants, paid $500,000 in penalties in the Eighth district court.

The penalty was paid under an agreed settlement. By its terms John D. Archbold and H. C. Folger, Jr., of New York, Standard Oil men, who are majority stockholders in the Magnolia Petroleum company of Corsicana, Tex., another defendant, agree that their stock is to be held by a trustee to be selected by Attorney General Looney. It is further agreed that the Magnolia and the Corsicana Petroleum company, the other Texas oil concern which is a defendant, shall be operated wholly in the Standard Oil interests.

FOREIGN LOBBY IS ACTIVE

Smoot Charges That Tariff Framers Were Influenced by It.

Washington, July 22.—Asserting that a foreign "lobby" had influenced the Democrats in the framing of the Underwood-Simmons tariff bill, Senator Smoot, Republican member of the finance committee, delivered a vigorous attack on the measure.

He painted a picture of mills shut down workmen unemployed, investors ruined and an era of general financial and industrial depression as the result of leveling of tariff walls.

Shoots Stepmother and Slays Self.

Knox, Ind., July 22.—Martin Strasburger, son of Frank Strasburger, a wealthy Chicago manufacturer, shot his stepmother through the head and then committed suicide at the summer home of his father on Bass lake. Mrs. Strasburger is not expected to live. No cause for the shooting has been learned.

SCHOOL AND SHOP CO-OPERATE.

Children Handicapped Throughout Life Who Quit School at 14.

Children who are compelled to enter industrial life at 14 are handicapped through life by lack of education. The continuation school, which gives the children in the shops a few hours each week of intellectual training especially adapted to help them in the work of the shop, helps to remove the handicap. Dr. Herman Schneider, dean of the college of engineering of the University of Cincinnati, one of the eleven experts who investigated the public school system of New York City, recommends the establishment of continuation schools, making it compulsory for employers of children to send the children to school for not less than four hours a week in the daytime. He outlines plans for the establishment of school courses by co-operation of employers and school authorities.

In this way manufacturers would agree to "institute and carry on a thorough and comprehensive apprentice course in their particular trades, while the school authorities would agree to give both general and specialized instruction to the apprentices." The course of work the student receives in the shop would be scheduled by the shop, but approved by the school authorities.

The continuation school is no longer an experiment. It is already in extensive operation in Germany, where its worth has been conclusively proven. We have a few such schools in this country. In Cincinnati it has been demonstrated, and this fact will appeal to employers, that "a worker in the energizing trades who goes to school for one-half day per week on pay, is a better producer per week than if he does not go." Looking beyond the week's output during the period the youthful worker is in attendance at the continuation school, there can be no doubt that in all the future working years, his supplemented training in the school will make him a more efficient worker—Leslie's Weekly.

The Man Who Refuses to Follow Orders.

The following is taken from the current issue of Farm and Fireside:

"Men who don't take and obey orders are not in demand.

"Everywhere, city and country, wherever men are hired, you will find the same trouble, men refusing to follow out orders, and always getting into trouble as a result. I know a man living in town who hires men to run his farms in the country. On one ranch he has a married man, past middle age, with a large family. The owner declares that it is next to impossible to get this man to carry out an order to the letter.

"'And why,' says the owner, 'should he presume to do things his way? Here he is past middle age, with nothing to show for his life. He has no property. This in itself tends to show that his judgment is faulty. Then why should he continually persist in doing things his way, when his life shows his way has always been the unsuccessful way?'

"When men who have accomplished things know what they want done and how they want it done and are willing to pay for it, why should some failure persist in doing things his way, while paid to perform them as they should be done?"

Of all crops alfalfa stands at the head of the list, alphabetically and otherwise. In the matter of digestible protein, alfalfa leads with 12.3 per cent, surpassing even wheat bran by 1.1 per cent. This chart presents some startling disclosures as to the great value of alfalfa, but it may not be very easy for every one to understand the full meaning expressed in percentages. Therefore, another chart has been prepared showing that alfalfa ranks highest in digestible protein per acre.

PROVES BENEFIT OF SPRAYING.

Professor Howard of M. U. Finishes Experiments in Orchards.

The farmer or fruit grower who still clings to the idea that spraying does not aid in the production of fruit will be convinced when he sees the report of W. L. Howard of the department of horticulture of the University of Missouri. By taking orchards here and there over the state Professor Howard has just finished a series of experiments that show that practically all unsprayed fruit is ruined by disease or insects.

In one orchard where a part was sprayed and a part was left unsprayed, only 1.2 per cent of the Arkansas Black apples could be classed as clean fruit after the trees had been left unsprayed. In the same orchard, where the same brand of apples had been sprayed, the crop of clean fruit was 76.7 per cent. Another orchard of Missouri Pippin apples experimented with the same way resulted in 2.1 clean fruit for the unsprayed part and 88.5 for that part which was sprayed.

THINGS ALL OUGHT TO KNOW

As Christian Bible Students—The Satisfactory Proof of "Why God Permits Evil."

One of the questions which comes to nearly every thinking mind today is, "Why does God permit evil?" As we look about us in the world we observe that it is filled with sorrow and trouble, sickness and pain and every trial we could enumerate, and we cannot help wondering WHY GOD ALLOWS IT. We realize that He is almighty and that He could prevent it if He wished. We read in His Word that He is more willing to do for His children than are earthly parents for theirs, and we know how much that means; yet oftentimes it seems that those who try to do and live right have the most trouble. This question is made very clear in a book entitled, "The Divine Plan of the Ages." Every statement is backed by Scripture, and shows that while God does not sanction evil HE HAS HAD A PURPOSE IN ALLOWING SIN AND DEATH TO REIGN THESE SIX THOUSAND YEARS. This and many other subjects of deep interest to all of God's people are discussed fully and in language easy of comprehension.

DETECTIVES POUNCE ON MRS. PANKHURST

Suffragette Leader Again Locked Up in Holloway Jail.

London, July 22.—Mrs. Emmeline Pankhurst, the militant suffragette leader who outwitted the police on Saturday, was arrested when she was entering a public hall to attend the weekly conclave of the Woman's Social and Political union. She had intended at the meeting to issue another defiant challenge to the government. Detectives pounced on Mrs. Pankhurst with dramatic suddenness and whisked her away in a taxicab. A few of the women accompanying Mrs. Pankhurst made an attempt to rescue her and in doing so vigorously trounced the detectives with their umbrellas. Six of them were arrested.

A big force of uniformed policemen closed up behind Mrs. Pankhurst and her captors and stemmed the rush of infuriated women, whose yells of "Murderers, assassins," drew great crowds to the scene.

Some of the women used hatpins as weapons of offense and several persons were badly hurt. When she arrived at Holloway jail Mrs. Pankhurst refused to leave the taxicab and was carried in by detectives.

DIES BEFORE PARDON COMES

Massachusetts Convict Meets Death as Friends Seek Release.

Bridgewater, Mass., July 22.—A spectacular career was ended under pathetic circumstances when Cardenio F. King, once widely known as a financier and newspaper publisher of Boston, died a convict at the state farm here in the very hour that friends, aware of the approach of death, were making desperate efforts to obtain his pardon.

Only a legal technicality prevented his last hours being those of a free man. Word that his condition was hopeless was sent to Governor Foss at Boston. The governor canvassed the members of his council by telephone and seven of the eight consented to immediate clemency, but Attorney General Swift rendered an opinion that a pardon could not be granted by telephone.

HOW ONE WOMAN WON

Her Health and Strength Back Again by The Use of Cardui.

Tampa, Fla.—In a letter from this city, Mrs. E. C. Corum writes: "I was all weakened and worn out with womanly troubles. My husband brought me some Cardui as a tonic, and, from the first day, it seemed to help.

I had almost lost my reason, but, thanks to Cardui, I did not. Soon, I felt and looked like a new woman. I think the remedy is wonderful. I recommend it to my friends, for I have received great benefit from it."

Cardui acts specifically on the weakened womanly organs, strengthening the muscles and nerves, and building them up to health.

It helps to refresh the worn-out nervous system and relieves the effects of overwork, both mental and physical.

Fifty years' successful use fully prove the merit of this purely vegetable, tonic remedy for women.

In every community, there live some who have been benefited by Cardui.

The beneficial effects of this time tested woman's remedy, soon show themselves in many different ways.

Try it.

PANIC AMONG PASSENGERS

Mutinous Chinese Strike Breakers Attack Officer of Ship.

New Orleans, July 22.—Mutiny of twenty-five Chinese on the steamship Comus, arriving from New York, resulted in a panic among the passengers, the probable fatal shooting of one of the mutineers, the wounding of three others and slight injuries to First Officer M. L. Proctor of the Comus. The general fight occured on the forward deck of the steamer.

Proctor probably owes his life to the bravery of Mrs. Florence Shaw, a stewardess, who saved him from being thrown over the rail by the infuriated Chinese.

The officer had ordered all the Chinese to the hold. The Orientals protested that the heat was too intense. When Proctor insisted, six of them rushed him to the rail. Then Mrs. Shaw appeared and battled her way among the Chinese, preventing them from throwing Proctor overboard.

Proctor drew his weapon and began firing. Other members of the crew and several passengers rushed into the melee. Finally the Orientals were cowed by superior force and were sent to the hold.

The Chinese were being brought here to act as strike breakers for the United Fruit company, whose seamen recently walked out.

When the boat docked the Orientals were ordered to come on deck, one at a time. With drawn weapons police took the men in charge.

HOLD CONFERENCE ON CURRENCY BILL

President and Chairman of Banking Committee Discuss It.

Washington, July 22.—There are to be no changes in the administration plans for the enactment of a currency law at the present congress. This was indicated plainly by President Wilson and Senator Owen, chairman of the senate committee on banking and currency, after they had held a long conference at the White House.

The president said he was satisfied with the speed with which the administration currency bill was being handled at the capitol and declared his confidence in the ultimate passage of the Glass bill with the changes proposed by the house committee.

The most important changes recommended would permit national banks to continue to use the 2 per cent government bonds for circulation. Other amendments are of minor importance, Senator Owen said.

The senator positively stated that the objections to the government control of the federal reserve would have no effect and that in this respect the bill would be passed by both houses in this form.

HAS GOOD WORD FOR YAQUIS

American Owner of Large Ranch in Mexico Pays High Tribute to Indian Tribe.

"The Yaqui Indians in Sonora and Chihuahua are among the finest races I ever encountered," said James W. Keyes, proprietor of an extensive ranch near Rosario, Sonora. "They are energetic, industrious and of high moral character. The Mexicans have never given them a square deal, and the Yaquis as a consequence have always been implacable enemies of the Mexican government. But the Indians are fair, and I believe that if the United States were to recognize the Huerta government the Yaquis would submit peaceably. In 1889 there was a difference between the Indians and the Mexican government. The Yaquis were up in arms. Father Percivault, a Catholic priest, was using his best efforts to bring about peace. He was selected by the government to act as its emissary to treat with the Yaquis.

"Meantime the head of the Yaquis had sent his son to treat with the Mexicans, and the representative of the Indians was murdered. Father Percivault went into the Yaqui country before the Indians had been acquainted with the murder of their emissary. It was only by strategy that the priest got out of the country alive. The Yaquis have the greatest respect for law and are fair in their dealings, but they will not brook imposition."

Author Started Controversy.

Professor Quiller-Couch recently delivered at Cambridge university a lecture on the authorized version of the Bible. He said that he did not admire Elizabethan prose, and gave credit for the beauty of seventeenth century English to the 47 translators of the Bible. Professor Quiller-Couch's admiration of the St. James version is shared by all, but critics are pointing out that the beauties of the St. James version are found in the earlier sixteenth century versions. "If he will turn to the versions of Wicliffe and Tyndal," writes one man in the Westminster Gazette, "or to that of the Rheims revision, he will find some at any rate of those unnumbered felicities which have become part and parcel of our English tongue." Another correspondent asserts that the "noble style and diction" were certainly of the sixteenth century, not the seventeenth. The new professor, who, it will be remembered, is a novelist, and who holds a chiefly ornamental position at Cambridge, has been convicted of an unguarded—or, to put it harshly, an unscholarly—statement.—Springfield Republican.

Only Siberian University.

Tomsk, the agricultural center of Siberia, boasts of the only university in that country. It was opened 26 years ago, and is so well endowed that tuition fees amount to only $50 a year. At the university hospital may be obtained the only Pasteur treatment for mad dog bite that is available in Siberia. As the disease is rife, this is no small blessing to the settlers. A great institute of technology and school of mines, too, is to be found at Tomsk. It has an enrollment of 1,700 students, many of them from the far-away region of the Caucasus, in southern Russia. American engineering textbooks are largely used in the institute.

Would Operate on Condemned Men.

Speaking in Paris again of his experiments, Dr. Alexis Carrel of New York, Nobel prize winner, said: "I can only operate on the heart, lungs and arteries of an animal. I have had many struggles with the measures which the American anti-vivisection societies have been taking. Why electrocute a condemned man? Why not give me his body? The condemned man will not suffer any more and he will render a last service to society, which he has dishonored."

PICNIC TIME OVER

CHAUTAUQUAS HAVE TAKEN THE PLACE OF OLD-TIME EVENT.

TWO WILL HAVE THEM

Barnard and Parnell Will Hold Picnics This Fall—Chautauqua Season Closes August 17.

The Chautauqua season in Nodaway county is not yet over. While Graham, Barnard and Ravenwood have held their Chautauquas, there are still four more to be given in the county. Those that have been held were a big success in a financial and social way, and they all decided to hold another one next year.

The Chautauqua seems to be taking the place of fairs and picnics at these towns, as this year is the first year that a Chautauqua has been held in Nodaway county outside of Maryville and Burlington Junction. Heretofore, nearly every town had a picnic, but this year they were done away with.

The Chautauqua at Hopkins commences on Wednesday, July 30, and closes on August 3. It will be held in the Hopkins park, and the program is furnished by the Keith-Vawter system of Cedar Rapids, Ia. Some of the talent includes Judge Lee S. Estelle of Omaha, Hon. W. I. Nolan, Dr. Sumner R. Vinton, Dr. F. E. Hopkins, Fred J. Clark, the Drexler-Fox company, the Dollie McDonnell company, the Novelty Entertainers and the Venetian Guards band.

The Chautauqua at Burlington Junction opens on Thursday, July 31, and closes on August 4. The Chautauqua program is furnished by the Keith-Vawter system and is the same program as at the Hopkins Chautauqua.

The Clearmont Chautauqua comes next and the dates are August 9 to 14. This Chautauqua is put on by the business men of the town and the program furnished by the Jenes system, the same bureau as furnished the talent at Graham, Barnard and Ravenwood.

The last Chautauqua to be held in the county is the Maryville Chautauqua, to be held from August 9 to 17. The program this year is exceptionally good and is the best one that has yet been secured.

Picnics are also to be held in the county at only two towns. Barnard will hold hers on August 7, 8 and 9. Parnell will hold one August 28, 29 and 30.

Resigned Barnard Pastorate.

Rev. J. Arthur Dillinger has resigned as pastor of the Christian church at Barnard, to take effect September 1. The reason Rev. Dillinger resigned his work at Barnard is that a new ruling has been made at Drake university, where he will finish the ministerial course the coming year, requiring them to be in their classes on Monday morning. His trip to Barnard to preach on Sunday would cause him to miss Monday's classes, and to miss that day would be counting a point each time off his grade. He will get the pastorate of the church at Blockton, Ia., however, as he can easily attend to that appointment.

A Series of Lectures at Normal.

Prof. John A. Whiteford, superintendent of the St. Joseph public schools, is giving a series of lectures at the Normal this week. His first talk was Monday morning, and the second one was given this morning at Normal assembly. These lectures will continue throughout this week on every morning. In the afternoon at 4 o'clock Prof. Whiteford is conducting a round table discussion, and they will also continue throughout the week.

THE COX FUNERAL.

Many Friends Attended Services in Memory of Miss Helen Cox—Girl Friends Were Pallbearers.

The funeral services for the late Miss Helen Cox, who died Sunday forenoon at the home of her sister, Mrs. M. C. Thompson, one mile north of the Burlington depot, were held Tuesday afternoon at 3 o'clock at the Thompson home, and were conducted by Rev. S. D. Harkness of the First Presbyterian church, in the absence of Miss Cox's pastor, Rev. Gilbert S. Cox of the First M. E. church.

A quartet composed of Mr. P. O. Landon, Mr. John Mutz, Miss Ada Clayton and Mrs. Charles Moore gave several numbers.

Interment took place in Miriam cemetery. The pallbearers were the girl friends of Miss Cox during her residence in Parnell a few years ago, and were Miss Gertrude Wright, Mrs. Lester Bennett, Miss Ethel Muse, Miss Ruby Bishop, Miss Blanche Bloomfield and Miss Grace DeFreece.

All the members of the family were present at the services and some out-of-town friends, including Mrs. George Thompson of Tarkio, Mrs. E. J. Gee and Mrs. I. J. Lapsley of Burlington Junction.

TOUR TO BE MADE IN AUGUST.

An Automobile Run to Be Made by Maryville People to Advertise the Chautauqua.

An automobile run will be made during the first week in August by the business men and citizens of Maryville for the purpose of advertising the Chautauqua to be held in this city, commencing August 9. Every town in the county will be visited, and also several towns in the adjoining counties. The run will take in all towns within a radius of thirty miles of Maryville.

The schedule for the tour is being arranged by the Commercial club and will be announced within a few days. The band will be taken along, and at each stop music will be given.

The run will be made in the evenings and it will take five or six evenings to visit each place in this section. At this time of the day it is much more comfortable for riding, and then more can be able to go, as the day's work will be over. John Sewell and Frank P. Reuillard are in charge of the tour.

STATE FAIR PREMIUM LISTS.

County Clerk Demott Has a Number of Copies of State Fair List.

County Clerk Demott has just received a number of copies of the Missouri state fair premium list for 1913. These are for free distribution in the county and any one may secure them by calling at the county clerk's office, or writing the secretary of the Missouri state fair, Sedalia.

The premium list shows increase in premiums over previous years, which means that the state fair is growing. One especially noticeable thing in this year's premium list, on page 8, is the establishment of a boys' state fair school. This new feature promises to be one of great value to every part of the state, as one boy from each county will be entertained by the state fair and will get one week of instruction and practical training in the most up-to-date methods of farming and stock raising. Many other features have been added. The dates for the state fair this year are September 27 to October 3.

SHIPPED OUT THIRTEEN CARS.

Clearmont Has Sent Out That Many Up to Tuesday—Cars Hard to Get.

Clearmont has already sent out thirteen cars of wheat up to Tuesday, and that is the first week's record. There is a shortage of cars and the people up there are already trying to secure more cars to ship the wheat out.

The wheat in the Clearmont vicinity is averaging 35 bushels to the acre. Tom Wallace had an average of 37½ bushels to the acre out of a 40-acre field.

Annual Meeting August 3.

The annual meeting and basket dinner of the Christian church of Pickering will be held the first Sunday in August. This event is always a home-coming of Pickering people, and is as largely attended as any meeting of the kind in the county. The program will be announced soon.

Mr. and Mrs. Earl King of Savannah returned home Monday from a visit with Mrs. King's parents, Mr. and Mrs. J. J. Bertram. Mrs. King had been here two weeks and Mr. King came to accompany her home.

Miss Bertha Goforth of Bolckow and Miss Donna Robinson of Barnard returned home Tuesday morning from a few days' visit with W. E. Goforth.

HIRTH MAY SPEAK

CLUB WILL MAKE ENDEAVOR IN BEHALF OF BONDS.

AN ACTIVE CAMPAIGN

A Determined Effort Will Be Made to Carry Road Bonds in Polk Township August 12.

The good roads election of Polk township to vote on a bond issue of $50,000 wil be held on Thursday, August 14, and the Commercial club is now arranging for an active campaign in behalf of the proposition. Probably several speakers, who are noted road men, will speak in various parts of the township before the election, and also on election day there will be many workers around the polls in the interest of the issue. Everything is to be done to carry the proposition.

No opposition at this time has developed against the bond issue. Of course, there will be several against it. It is necessary to have a two-thirds majority for the issue to carry.

The Commercial club is now trying to secure Wm. Hirth of Columbia, Mo., to come to Maryville for a good roads speech on Tuesday, August 12, or two days before the election. The talk will probably be given in the afternoon of that day at the Chautauqua before the regular program. Mr. Hirth is president of the State Federation of Commercial Clubs.

The Commercial club is also going to co-operate with Governor Major in making Wednesday and Thursday, August 21 and 22, good roads days, a success in this county. They will try and get everybody they can to spend these two days on the roads.

TO HAVE ONE NEXT YEAR.

Ravenwood Also to Have Another Chautauqua as First One Was a Success.

The closing session of the Ravenwood Chautauqua Monday night was by far the best of the season, and the people became so enthusiastic that they immediately guaranteed another Chautauqua next year. Sixteen of the business men signed a contract for a Chautauqua to be held some time between July 25 and August 15, 1914, and 150 tickets were pledged.

Hon. Charles J. Hall was the lecturer last night, and he proved as popular, if not more so, at Ravenwood as he did at Graham and Barnard. The people of Ravenwood were still talking today of the good things he said in his lecture.

Went to St. Louis.

L. B. Tracey of the Alderman-Yehle dry goods store went to St. Louis Sunday night, where he will spend the week with the big shoe stores of that city, getting the most reliable information possible in regard to the shoe business, and will buy the new stock of shoes for the store. Mr. Tracey will have charge of this new department at the Alderman-Yehle store.

ARCTIC SHIP DIANA.

MacMillan's Expedition to Explore Crocker Land Is Halted by Wreck of Ship.

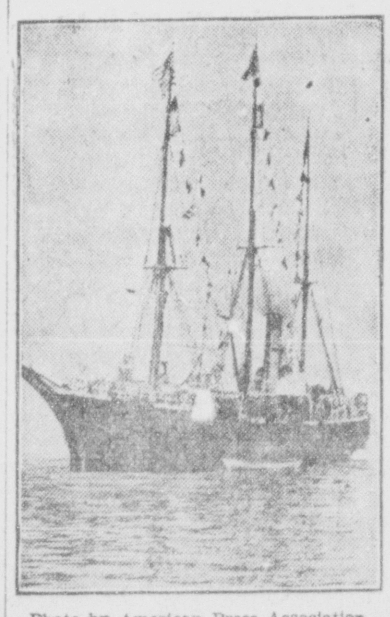

Photo by American Press Association.

The steamship Diana, having on board the Donald MacMillan expedition, bound for Crocker Land, went ashore at Barge point, forty miles west of Battle harbor, in the Belle Isle strait. According to a message sent by MacMillan, she probably will be a total loss. The Stella Maris, a Newfoundland revenue cruiser, has gone to the assistance of the Diana. No details of the wreck have been received.

WILL SHE APPEAR?

MRS. CARRIE YOUNGER'S TESTIMONY WANTED IN CASE.

TAKING DEPOSITIONS

Financier's Wife Served With Subpoena to Come to Maryville Goes On Sudden Visit to Iowa.

Mrs. Carrie Younger, wife of Joseph Younger, the noted Elmo financier, who arrived in Elmo about a week ago for a visit with her parents, Mr. and Mrs. B. C. Hallsa, seems to have taken a hurried departure from the town last week.

The cause of Mrs. Younger's departure, it is said, was that she did not want to have any of the attorneys take her depositions in the many cases that are still on the Nodaway county docket against Younger and herself.

Mrs. Younger was served last week at Elmo with a subpoena to appear at Maryville on Monday, July 21, for the purpose of taking her deposition in the Younger cases. She acknowledged service on the subpoena. Mrs. Younger didn't appear Monday, and communication with Elmo said that she had left that town. So when Mrs. Younger didn't appear, Sheriff Wallace was ordered to go after her. He went to Elmo Monday evening and the parents of Mrs. Younger told him that she had gone to Silver City, Ia., on a visit and would be back soon. But Mrs. Younger hasn't shown up, and many attorneys here are of the opinion that she will not show up. Efforts have been made for the past month or two to get the depositions of Mrs. Younger and her husband, but they have been fruitless. But the attorneys here are going to still keep after them.

The depositions taken Monday were before Notary M. A. Peery, and the following attorneys were in attendance, representing one or more of the many suits against Younger: Shinabargar, Blagg & Ellison; Cook, Cummins & Dawson; M. E. Ford, Ellis G. Cook, and an attorney from Atchison, Kan., representing Mr. Simmons of the First National bank of that place. The depositions will continue to be taken all this week.

B. C. Hallsa of Elmo, step-father of Mrs. Younger, came to Maryville today to have his deposition taken. He didn't have anything to say for publication.

It is said at Elmo that Mrs. Younger is on her way to her home in Calgary, Canada. She left Elmo Sunday evening. It is understood that Mr. Younger is a day laborer at Calgary.

IMPROVEMENT AT HOSPITAL.

A Pavilion and Cement Driveway Being Built On the South Side of This Splendid Building.

An improvement is being made at St. Francis hospital that will not only be a great convenience, but will add much to the beauty of the place. A wide cement driveway is being constructed from South Saunders street along the entire south side of the building for the convenience of automobiles and other vehicles that have need of driving to a close entrance to the hospital.

In addition to this a beautiful pavilion of cement blocks and columns of the same material is being built on the south side of the driveway. It will serve as a lovely resting place for the Sisters or anyone at the hospital who may wish to rest there. It will have an ample roof.

This provision of St. Francis hospital for a resting place should be a rebuke to the rest of the town for not providing a place for people who need a rest room uptown.

Will Return to Washington.

Mrs. George E. Dew of Toledo, Wash., who has been visiting her brother, Judge J. H. Sayler, and family in this city for several days, went to Hopkins Monday to spend a few days with her father, J. M. Sayler. Mrs. Dew's children are now all in Washington excepting one son, Ray, at Holden, Mo. Two sons are in the newspaper business and one son-in-law is a naval instructor at Bremmerton.

Home From Vacation Visit.

Miss Mary Fordyce returned Tuesday from a three months' visit in the Ozarks. While away she visited her sister, Mrs. D. J. Seipert of Pierce City, Mo., and at Joplin with her father, T. S. Majors.

Were in the City.

A party composed of J. A. Kavanaugh, John McDowell and P. L. Trapp of Graham and B. A. Trapp of San Diego, Cal., were in the city Tuesday.

MORE TENTS THIS YEAR.

Chautauqua Campers Are Getting Their Orders in Early for Quarters in White City.

More tents have been ordered and paid for already this year than had been up to the opening day of the Chautauqua last year. This unusual run on the large number of tents which Manager Landon has ordered for this year has about exhausted the supply in certain sizes. The last order for tents will be sent in next Saturday, July 26, and persons who wish a tent of a particular kind should send in their order at once to insure its being filled.

The outlook bids fair for the largest and gayest crowd of campers ever assembled at our Chautauquas. The camping idea has grown rapidly here in the last three years, and last year 100 tents sheltered five times as many people. These "outers" got more good out of the Chautauqua than anybody else, and, to judge from the way tents are being ordered this year, they must have passed along word of their good times.

Last year's camping activities were not spoiled by the rain, either, which fell for five of the nine days. The tents were dry. Only one of all the tents rented by the Chautauqua management leaked, and it was replaced with a new one. The grounds are high, and the water drained away from them continually. The tenters kept on tenting and having a good time, and the only effect the rain had on them was to make them pity the people who could not attend because the muddy roads made it too inconvenient to get to the grounds.

Under such conditions camping in the Normal park is a safe and sure thing any year, and, with the increase in rented tents and private tents in town this year will be no exception.

OFF ON VACATION TRIP.

Miss Alicia Keeler and Miss Frances Keeler Left Tuesday for Several Weeks' Outing in the East.

Miss Alicia Keeler of the Maryville high school faculty, and Miss Frances Keeler left Tuesday evening on a four or five weeks' trip to New York City and other eastern points. They will take the water trip through Quebec, and will be met in New York by their brother, Lieutenant John Keeler of the coast artillery stationed at Fort Wright, on Long Island, and will be his guests for several days.

They will also visit their sister, Madame Lillie Keeler, at Sacred Heart convent in Rochester. In Rochester, N. Y., they will be the guests of a cousin, Judge P. J. Keeler, who is judge of the police court of Rochester. Judge Keeler was a young man of Nodaway county a few years ago, having grown up near Conception. He went east to study law and the offerings for the practice of his profession there were too alluring to turn down and the success that is now his shows he did not make a mistake. Judge Keeler is a namesake of his uncle, the late Patrick J. Keeler of Maryville.

SUING FOR HIS CAR.

H. Glenn Curtiss of St. Joseph Brings Replevin Suit Against Frank J. Perry.

A replevin suit was filed Tuesday in Circuit Clerk Rathbun's office by Attorney M. E. Ford for H. Glenn Curtiss of St. Joseph against Frank J. Perry of this city. According to the petition the defendant has a 4-cylinder 40-horsepower 1911 model Chalmers roadster which belongs to the plaintiff. Possession of the machine and $100 damages are asked for by Mr. Curtiss. The suit will come up at the September term of court.

Are Here for Few Days.

Miss Lois Halley of this city and Mrs. A. C. Wiseman of Amazonia came Tuesday from Burlington Junction, where they have been visiting Mrs. E. E. Bever, and will spend a few days here before Mrs. Wiseman returns home. Miss Halley is spending the summer at her grandmother's home, recuperating from the wear and tear of study and teaching and getting ready for her coming year's work at the Missouri state university.

Will Spend the Summer.

Mrs. Mollie Porter went to St. Joseph Tuesday morning for a vist with friends and will remain until fall with friends and relatives at other points near St. Joseph. Mrs. Porter has leased her residence on South Main street to Mr. and Mrs. John Wells.

Hurt in Threshing Machine.

GOVERNOR WILL DON OVERALLS ON GOOD ROADS DAY.

WOMEN PROVIDE FEED

Everybody in the State Asked to Help in Work of Making Good Roads for Missouri.

Governor Major issued a proclamation Monday setting apart Wednesday and Thursday, August 20 and 21, as public holidays, to be known as "Good Roads Days."

Every able bodied man in the rural districts and cities of the state is to put in these days working on the public highways.

The governor asks that all ordinary business be suspended, and that wherever possible the men put in full time on the permanent improvement of the roads, either dragging, ditching, or making culverts or bridges, or whatever will lend to accomplish the greatest good.

Every county court in the state is asked to issue a supplemental proclamation and make provisions for work in each and every neighborhood of the state where there are highways. The press of the state and citizens generally are called upon to aid in seeing that the proclamation is carried out to the fullest possible extent.

The women in the rural districts are asked to aid by furnishing the workers with lunches, and encouraging them with their presence and good cheer. The commercial clubs and the booster organizations are called upon to render every assistance in their power.

The governor estimates that work approximating one and a half million dollars in value will result.

"Nothing is more desirable," the governor says, "than good highways and nothing will pay a larger dividend in the future."

Governor Major will take the initiative and put in two days on some highway of Cole county. He has made arrangements for taking 100 convicts from the penitentiary and putting them to work for the two days on some road near Jefferson City. They will be under charge of prison officials, and their work will be directed by the county highway engineer.

The governor will expect every state official and every employe of the state government who can be spared from his post to put in two full days at work on the roads.

Photographs for the moving picture companies will be at many points in the state to take photographs of the volunteer workers, to the end that the result of a state-wide movement of the kind may be presented through the moving picture shows to the country in general.

Governor Major expects to use a pick, shovel, or whatever tool may be most available himself. He does not want any loafers around watching more industrious persons carrying into effect the spirit of his proclamation.

DEATH OF EDGAR BREDWELL.

A Former Resident of Maryville Died at Canton, O., July 13.

Edgar Bredwell, a former resident of Maryville, died Sunday, July 13, at his home in Canton, Ill. Death was due to a complication of troubles, beginning with a hemorrhage of the lungs in February. He lacked a few days of being 53 years old at the time of his death.

Mr. Bredwell lived in Maryville some twenty years ago. He was assistant postmaster under John Ham during the first year of Willebald Yehle's term. While here his first wife, Mollie Brokaw, died. Their two children, Mrs. Guy Spenny of Ottawa, Kan., and Mrs. T. Clyde Allen of Hiawatha, Kan., survive them. Mr. Bredwell is also survived by a second wife and three children, who live in Canton.

To Leave on Vacation Trip.

Eldon Irvin, an employee in the postoffice, will leave Wednesday morning for a ten days' visit with his brother, Edwin Irvin, at Watertown, S. D. He intends to spend part of the time fishing at the lakes in southern Minnesota. Mr. Irvin has a three weeks' vacation from the postoffice.

Miss Annie Kimple and Mrs. A. S. Neely of Bolckow were in Maryville shopping Monday.

LAW PREVENTS HAULING.

The Fine for Hauling Intoxicating Liquors Same as That of Party Selling the Stuff.

Recently in Adair county, of which Kirksville is the county seat, a suit was brought to enjoin the railroads from hauling liquor into the county, and the county won the suit and the railroads were enjoined from hauling the stuff in that county. Now in that county, intoxicating liquors are being hauled by wagon, automobiles and other vehicles from adjoining outside points. The prosecuting attorney of that county is making an effort to put a stop to it. According to the law a penalty as serious as there is for selling it illegally is prescribed for hauling liquor into any dry county. Kirksville is dry, and also the county outside of Kirksville.

Here are four sections of the Missouri law which apply:

"Section 7226—It shall be unlawful for any person or persons, not a licensed dramshop keeper or by law authorized to sell liquor as a wholesaler, to order for, receive, keep or deliver, as the agent or otherwise, of any other person, intoxicating liquors of any kind."

"Section 7227—No person shall keep, store or deliver, for or to another person, in any county that has adopted the local option law, any intoxicating liquors of any kind whatsoever."

"Section 7228—Nothing in the two preceding sections shall be construed to prohibit any person from ordering liquor for his own or family use, where such liquor is sent direct to the person using the same."

"Section 7229—Any person violating the provisions of the three next preceding sections shall be deemed guilty of a misdemeanor, and find not less than three hundred dollars nor more than one thousand dollars, or imprisoned in the county jail for not less than three months nor more than one year, or both such fine and imprisonment."

RAVENWOOD ITEMS.

The Chautauqua closed last night and the session was a very successful one. The Ravenwood band gave excellent music during the Chautauqua. It was decided to hold another Chautauqua next year and the business men will have charge of it.

John Collinsworth, east of town, is dangerously sick. He is not expected to live.

The wheat crop in this section is averaging big. The average will reach between 30 and 35 bushels to the acre.

Deafness Cannot Be Cured

...local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

RESTORED TO ENTRY.

Six Million Acres of Withdrawn Lands Back in Public Domain.

Six million acres of withdrawn public lands were restored to entry during the months of May and June on approval by the secretary of the interior of the recommendations of the United States geological survey. This action was the result of examination and classification of the lands by the survey, those restored either having been found not to be valuable for power sites, reservoirs, or having been definitely valued as coal lands, and rendered available for purchaser under the coal land law.

Of these lands relieved from coal withdrawal nearly two and a half million acres were in the state of Colorado as water power sites.

In Idaho 1,100,000 acres of coal and phosphate withdrawals were classified and destored, and for water power sites approximately 10,000 acres were withdrawn and about the same acreage restored.

In Montana 250,000 acres were restored as being non-coal bearing and about 1,000 acres as not valuable for water power sites, while about 150 acres were withdrawn for that purpose.

In North Dakota nearly 1,400,000 acres in coal withdrawn were classified and restored.

In Oregon approximately 75,000 acres were restored as non-oil bearing lands and about 12,000 acres were withdrawn for power or reservoir sites.

In South Dakota over 300,000 acres were relieved from the coal withdrawal.

In Utah about 1,500 acres were withdrawn for water power sites.

In Wyoming over 47,000 acres of coal withdrawals were reopened to entry and purchase; approximately 87,000 acres were withdrawn for classification as to whether they are oil bearing lands, and about 304,000 acres were restored as non-phosphate lands.

For all states the total withdrawals during the months of May and June were over 116,000 acres, and the total restorations were over 6,000,000 acres.

The total outstanding withdrawals on July 1 in all the public land states amounted to 68,609,289 acres, of which more than fifty-eight million acres are in coal land withdrawals.

These lands are held pending classification by the geological survey, and as rapidly as they are either valued and placed on sale (as in the case of coal lands), definitely reserved pending appropriate legislation by congress to provide for their disposition (as in the case of potash or phosphate lands) or held subject to development under departmental regulations (as in the case of water power or reservoir reservations); or if they are found to be non-mineral in character they are restored to public entry. This work of classification and valuation is being prosecuted by the geological survey as rapidly as the appropriations provided by congress will permit.

WEIGHT TO BE INCREASED.

Parcel Post Packages Can Now Be 20 Pounds—Rates to Be Lowered.

Plans for the extension, improvement and reduction in rates of the parcel post were announced Saturday by Postmaster General Burleson. The changes, which are to become effective August 15, include an increase from 11 to 20 pounds in the maximum weight of parcels; a material reduction in the postage rates in the first and second zones, and the abandonment of the parcel post may as a means of computing rates, and the substitution for it of a rate chart individualized to every postoffice in the United States. The plans contemplate the purchase of a large number of automobiles to be used exclusively for the delivery of parcel post matter.

While, for the present, the maximum weight limit of twenty pounds and the reduction in rates will apply only to the first and second zones, from any given postoffice—a distance of about 150 miles—the changes directed today constitute the first long step toward a universal extension of the system and a general reduction in the rates of postage on parcel matter.

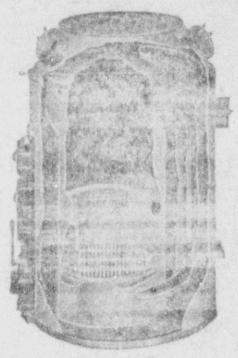
The Lenox Torrid Zone Steel Furnace



Has been on the market 19 years and I have installed them 17 of the 19 years. That is a long time to stick to one make of furnace, and, of course, there is a reason. Experience has proven the **Torrid Zone Furnace** the best.

It consumes less fuel and produces the most heat, has the greatest amount of radiation and delivers more heat to the hot-air circulating chamber than others in the same length of time.

Take note of the Torrid Zone construction:

The furnace shell—one piece of steel, the top, bottom and feed-door frame is of steel and riveted gas tight with wrought steel rivets, driven home with phenumatic riveters.

The radiator is hung to the smoke outlet on a wedge joint, the more the heat expands the joint the tighter the joint becomes.

The dividing flue extends to within 8 inches of the bottom, cousing the heat to travel 3 times the length of the radiator before escaping to the flue.

These are a few of the many reasons of its superiority. The one in our south window is a life size. Bring in your plans and let us furnish you estimates on heating the home.

Wild Oats.

A man engaged himself to a farmer to do farm work. The first morning after his arrival he was awakened by the farmer at three o'clock in the morning with the injunction that it was time to get up.

"What time is it?" inquired the man.

"Three o'clock," said the farmer.

"Why get up at this hour?" said the man.

"We must get them oats in today," said the farmer.

"Are they wild oats?" inquired the man.

"No," said the farmer, "they are not wild oats."

"Then," said the man, "if they are not wild, what in the thunder is the need of sneaking up on them in the night? they'll be there in the morning."—Picked up.

WITH the ordinary typewriter the day's work usually begins to tire the operator by three o'clock; the constant strike, strike, strike on the usual heavy-touch machine shows its fatiguing effect in mid-afternoon. But when the operator has the advantage of

Monarch *Light Touch*

there is neither *three o'clock* fatigue nor *closing hour* fatigue. The Monarch operator doesn't *hammer* the keys, she *touches* them. The mechanical principle exclusively incorporated in the Monarch completes the impression. A feathery touch *starts* it—therefore strength isn't called for and fatigue doesn't follow.

Letters written on the Monarch Typewriter are uniform in spacing, alignment and *color*

In addition to the Monarch Light Touch, and the exclusive Monarch Rigid Carriage feature, every other important improvement of the modern typewriting machine, such as Back Space Key, Two-Color Ribbon Shift, Contained Tabulator, etc., will also be found in the Monarch.

Let us demonstrate Monarch economy of strength, time and money.

PREDICT END OF HUERTA REGIME

Situation in Mexico is Discussed at Washington.

CONFLICT TO BE DECIDED SOON

Reaches Point Where It Must Be One Way or Other—Ambassador Wilson's Coming Is Awaited—Refuses to Do Any Talking.

Washington, July 22.—Reports of conditions surrounding the Huerta government in Mexico have put administration officials in an attitude of keenest apprehension toward the situation there. Arvices which officials believe to be perfectly trustworthy seem to indicate that the strife between the Huerta regime and the revolutionary elements is nearing a point where some definite conclusion is to be reached.

Information of this situation when permitted to be known was coupled with the authoritative statement that the United States was making no additional naval or military preparations. Reports of an impending collapse of the Huerta regime are being talked over freely in official circles.

PRESIDENT HUERTA OF MEXICO.

Meanwhile President Wilson is awaiting the coming of Ambassador Henry Lane Wilson, hurrying north from Mexico City, to make a first-hand report of conditions. His reports will be compared with those President Wilson has received from other sources. Secretary Bryan, who has canceled some of his lecture dates that he may return to Washington Friday, will participate in the conference.

Ambassador at Havana.

Havana, July 22.—The American ambassador to Mexico, Henry Lane Wilson, arrived here from Vera Cduz on the steamer Mexico. On account of extreme weariness, the ambassador decided not to come ashore. He will proceed by way of Key West today to Washington. He declined to discuss Mexican affairs or the object of his visit to Washington.

ALL TO WORK ON HIGHWAYS

Missouri Will Have Good Roads Holiday Aug 20 and 21.

Jefferson City, Mo., July 22.—Governor Major issued a proclamation setting apart Wednesday and Thursday, Aug. 20 and 21, as public holidays, to be known as "Good Road days."

Every able-bodied man in the rural districts and cities of the state is to put in these days working on the public highways.

The governor asks that all ordinary business be suspended and that wherever possible the men put in full time on the permanent improvement of roads, either dragging, ditching or making culverts or bridges, or whatever will accomplish the greatest good.

The women in rural districts are requested to aid by furnishing the volunteer workers with lunches and encouraging them with their presence and good cheer. The commercial clubs and the booster organizations are called on to render every assistance in their power.

The governor estimates that work approximating more than $1,000,00 in value will result.

Fukien Province Joins Revolt.

Washington, July 22.—Fukien province has seceded from the Chinese republic, according to a dispatch to the state department from Consul Fowler at Foochow. Fukien borders on Kiangsi and Kwanktung, the two provinces which already have thrown off allegiance to the Peking government. The legation at Peking reports that the local government of Canton proposes to send 15,000 troops north within a week to engage the government forces.

DENIES STORY TOLD BY MULHALL

Nelson Says He Never Had Any Conversations With Lobbyist.

DID NOT INTRODUCE CLAPP.

Minnesota Senator Doesn't Remember Talking About Trust Law Amendment—Colleague Cannot Remember Ever Meeting Field Agent.

Washington, July 22.—Two senators, Nelson and Clapp of Minnesota, took the stand before the committee of their colleagues investigating the "lobby" and denied the truth of the statements made by Martin M. Mulhall, former political worker, accelerator of congressional opinion and all-around field worker for the National Association of Manufacturers.

In letters read into the record Mulhall told of conversations with Senator Nelson—a member of the lobby committee—in relation to the rejection early in 1909 of a bill amending the Sherman anti-trust act by a senate subcommittee of which Mr. Nelson was chairman. Mulhall wrote to F. C. Schwedtman, secretary to James W. Van Cleve, president of the association, that he had seen Senator Nelson and the senator had told him what had transpired in his subcommittee.

Introduced to Clapp.

He swore on direct examination by Senator Cummins that Mr. Nelson had suggested that the association send a copy of the subcommittee's adverse report on the bill to the president, Mr. Roosevelt. In one letter Mulhall spoke of being introduced to Senator Clapp by Mr. Nelson and of talking with both men about a recent decision under the Sherman act.

Questioned closely by Senator Cummins, Mulhall first swore he had been told by Mr. Nelson what had occurred in the committee, even to how its members had voted on the proposed amendment; pursued further, he agreed that possibly he had not received such information, and then switched again and declared that if he had reported that he had received such information, it must be correct.

Doesn't Recall Seeing Mulhall.

"I have no recollection of seeing Mr. Mulhall or talking to him about this bill and I certainly would not have talked to him about what transpired before the judiciary committee," said Senator Nelson. "It is possible that he may have stepped inside of my office and gotten them from my clerk. Mr. Hicks, my clerk, says that he cannot recollect ever having seen Mulhall in our room. Ever since Mr. Mulhall appeared here before the committee I have been racking my brain to think or recall if I ever saw him or had a talk with him. There is a possibility that I may be mistaken. I understand that Mr. Mulhall had a mustache then and perhaps that may account for the fact that I do not recognize him now."

"I have not the slightest recollection of ever meeting Mulhall and certainly I have no recollection that Senator Nelson introduced me to him in his room," swore Senator Clapp.

Mulhall said that former Representative Watson of Indiana was employed in 1908 while a member of the house to help "put through" a tariff commission bill at a retainer of $500; $250 a week and $10,000 if he got the measure through congress. Mulhall did not say who was to pay.

TEXAS OIL CASE ENDED

Hundred Million Penalty Suit Settled for Half Million.

Greenville, Tex., July 22.—The Texas $102,000,000 oil penalty suit was unexpectedly settled when the Standard Oil company of New York, one of the defendants, paid $500,000 in penalties in the Eighth district court.

The penalty was paid under an agreed settlement. By its terms John D. Archbold and H. C. Folger, Jr., of New York, Standard Oil men, who are majority stockholders in the Magnolia Petroleum company of Corsicana, Tex., another defendant, agree that their stock is to be held by a trustee to be selected by Attorney General Looney. It is further agreed that the Magnolia and the Corsicana Petroleum company, the other Texas oil concern which is a defendant, shall be operated wholly in the Standard Oil interests.

FOREIGN LOBBY IS ACTIVE

Smoot Charges That Tariff Framers Were Influenced by It.

Washington, July 22.—Asserting that a foreign "lobby" had influenced the Democrats in the framing of the Underwood-Simmons tariff bill, Senator Smoot, Republican member of the finance committee, delivered a vigorous attack on the measure.

He painted a picture of mills shut down, workmen unemployed, investors ruined and an era of general financial and industrial depression as the result of leveling of tariff walls.

SCHOOL AND SHOP CO-OPERATE.

Children Handicapped Throughout Life Who Quit School at 14.

Children who are compelled to enter industrial life at 14 are handicapped through life by lack of education. The continuation school, which gives the children in the shops a few hours each week of intellectual training especially adapted to help them in the work of the shop, helps to remove the handicap. Dr. Herman Schneider, dean of the college of engineering of the University of Cincinnati, one of the eleven experts who investigated the public school system of New York City, recommends the establishment of continuation schools, making it compulsory for employers of children to send the children to school for not less than four hours a week in the daytime. He outlines plans for the establishment of school courses by co-operation of employers and school authorities.

In this way manufacturers would agree to "institute and carry on a thorough and comprehensive apprentice course in their particular trades, while the school authorities would agree to give both general and specialized instruction to the apprentices." The course of work the student receives in the shop would be scheduled by the shop, but approved by the school authorities.

The continuation school is no longer an experiment. It is already in extensive operation in Germany, where its worth has been conclusively proven. We have a few such schools in this country. In Cincinnati it has been demonstrated, and this fact will appeal to employers, that "a worker in the energizing trades who goes to school for one-half day per week on pay, is a better producer per week than if he does not go." Looking beyond the week's output during the period the youthful worker is in attendance at the continuation school, there can be no doubt that in all the future working years, his supplemented training in the school will make him a more efficient worker—Leslie's Weekly.

The Man Who Refuses to Follow Orders.

The following is taken from the current issue of Farm and Fireside:

"Men who don't take and obey orders are not in demand.

"Everywhere, city and country, wherever men are hired, you will find the same trouble, men refusing to follow out orders, and always getting into trouble as a result. I know a man living in town who hires men to run his farms in the country. On one ranch he has a married man, past middle age, with a large family. The owner declares that it is next to impossible to get this man to carry out an order to the letter.

"'And why,' says the owner, 'should he presume to do things his way? Here he is past middle age, with nothing to show for his life. He has no property. This in itself tends to show that his judgment is faulty. Then why should he continually persist in doing things his way, when his life shows his way has always been the unsuccessful way?'

"When men who have accomplished things know what they want done and how they want it done and are willing to pay for it, why should some failure persist in doing things his way, while paid to perform them as they should be done?"

Of all crops alfalfa stands at the head of the list, alphabetically and otherwise. In the matter of digestible protein, alfalfa leads with 12.3 per cent, surpassing even wheat bran by 1.1 per cent. This chart presents some startling disclosures as to the great value of alfalfa, but it may not be very easy for every one to understand the full meaning expressed in percentages. Therefore, another chart has been prepared showing that alfalfa ranks highest in digestible protein per acre.

PROVES BENEFIT OF SPRAYING.

Professor Howard of M. U. Finishes Experiments in Orchards.

The farmer or fruit grower who still clings to the idea that spraying does not aid in the production of fruit will be convinced when he sees the report of W. L. Howard of the department of horticulture of the University of Missouri. By taking orchards here and there over the state Professor Howard has just finished a series of experiments that show that practically all unsprayed fruit is ruined by disease or insects.

In one orchard where a part was sprayed and a part was left unsprayed, only 1.2 per cent of the Arkansas Black apples could be classed as clean fruit after the trees had been left unsprayed. In the same orchard, where the same brand of apples had been sprayed, the crop of clean fruit was 76.7 per cent. Another orchard of Missouri Pippin apples experimented with the same way resulted in 2.1 clean fruit for the unsprayed part and 88.5 for that part which was sprayed.

Rid Your Children of Worms.

You can change fretful, ill-tempered children into healthy, happy youngsters, by ridding them of worms. Tossing, rolling, grinding of teeth, crying out while asleep, accompanied with intense thirst, pains in the stomach and bowels, feverishness and bad breath are symptoms that indicate worms. Kickapoo Worm Killer, a pleasant candy lozenge, expels the worms, regulates the bowels, restores your children to health and happiness. Mrs. J. A. Brisbin of Elgin, Ill., says: "I have used Kickapoo Worm Killer for years, and entirely rid my children of worms. I would not be without it." Guaranteed. All druggists, or by mail. Price 25c. THINGS ALL OUGHT TO KNOW

As Christian Bible Students—The Satisfactory Proof of "Why God Permits Evil."

One of the questions which comes to nearly every thinking mind today is, "Why does God permit evil?" As we look about us in the world we observe that it is filled with sorrow and trouble, sickness and pain and every trial we could enumerate, and we cannot help wondering WHY GOD ALLOWS IT. We realize that He is almighty and that He could prevent it if He wished. We read in His Word that He is more willing to do for His children than are earthly parents for theirs, and we know how much that means; yet oftentimes it seems that those who try to do and live right have the most trouble. This question is made very clear in a book entitled, "The Divine Plan of the Ages." Every statement is backed by Scripture, and shows that while God does not sanction evil HE HAS HAD A PURPOSE IN ALLOWING SIN AND DEATH TO REIGN THESE SIX THOUSAND YEARS. This and many other subjects of deep interest to all of God's people are discussed fully and in language easy of comprehension.

DETECTIVES POUNCE ON MRS. PANKHURST

Suffragette Leader Again Locked Up in Holloway Jail.

London, July 22.—Mrs. Emmeline Pankhurst, the militant suffragette leader who outwitted the police on Saturday, was arrested when she was entering a public hall to attend the weekly conclave of the Woman's Social and Political union. She had intended at the meeting to issue another defiant challenge to the government. Detectives pounced on Mrs. Pankhurst with dramatic suddenness and whisked her away in a taxicab. A few of the women accompanying Mrs. Pankhurst made an attempt to rescue her and in doing so vigorously trounced the detectives with their umbrellas. Six of them were arrested.

A big force of uniformed policemen closed up behind Mrs. Pankhurst and her captors and stemmed the rush of infuriated women, whose yells of "Murderers, assassins," drew great crowds to the scene.

Some of the women used hatpins as weapons of offense and several persons were badly hurt. When she arrived at Holloway jail Mrs. Pankhurst refused to leave the taxicab and was carried in by detectives.

DIES BEFORE PARDON COMES

Massachusetts Convict Meets Death as Friends Seek Release.

Bridgewater, Mass., July 22.—A spectacular career was ended under pathetic circumstances when Cardenio F. King, once widely known as a financier and newspaper publisher of Boston, died a convict at the state farm here in the very hour that friends, aware of the approach of death, were making desperate efforts to obtain his pardon.

Only a legal technicality prevented his last hours being those of a free man. Word that his condition was hopeless was sent to Governor Foss at Boston. The governor canvassed the members of his council by telephone and seven of the eight consented to immediate clemency, but Attorney General Swift rendered an opinion that a pardon could not be granted by telephone.

HOW ONE WOMAN WON

Her Health and Strength Back Again by The Use of Cardui.

Tampa, Fla.—In a letter from this city, Mrs. E. C. Corum writes: "I was all weakened and worn out with womanly troubles. My husband brought me some Cardui as a tonic, and, from the first day, it seemed to help.

I had almost lost my reason, but, thanks to Cardui, I did not. Soon, I felt and looked like a new woman. I think the remedy is wonderful. I recommend it to my friends, for I have received great benefit from it."

Cardui acts specifically on the weakened womanly organs, strengthening the muscles and nerves, and building them up to health.

It helps to refresh the worn-out nervous system and relieves the effects of overwork, both mental and physical.

Fifty years' successful use fully prove the merit of this purely vegetable, tonic remedy for women.

In every community, there live some who have been benefited by Cardui.

The beneficial effects of this time tested woman's remedy, soon show themselves in many different ways.

Try it.

PANIC AMONG PASSENGERS

Mutinous Chinese Strike Breakers Attack Officer of Ship.

New Orleans, July 22.—Mutiny of twenty-five Chinese on the steamship Comus, arriving from New York, resulted in a panic among the passengers, the probable fatal shooting of one of the mutineers, the wounding of three others and slight injuries to First Officer M. L. Proctor of the Comus. The general fight occured on the forward deck of the steamer.

Proctor probably owes his life to the bravery of Mrs. Florence Shaw, a stewardess, who saved him from being thrown over the rail by the infuriated Chinese.

The officer had ordered all the Chinese to the hold. The Orientals protested that the heat was too intense. When Proctor insisted, six of them rushed him to the rail. Then Mrs. Shaw appeared and battled her way among the Chinese, preventing them from throwing Proctor overboard.

Proctor drew his weapon and began firing. Other members of the crew and several passengers rushed into the melee. Finally the Orientals were cowed by superior force and were sent to the hold.

The Chinese were being brought here to act as strike breakers for the United Fruit company, whose seamen recently walked out.

When the boat docked the Orientals were ordered to come on deck, one at a time. With drawn weapons police took the men in charge.

HOLD CONFERENCE ON CURRENCY BILL

President and Chairman of Banking Committee Discuss It.

Washington, July 22.—There are to be no changes in the administration plans for the enactment of a currency law at the present congress. This was indicated plainly by President Wilson and Senator Owen, chairman of the senate committee on banking and currency, after they had held a long conference at the White House.

The president said he was satisfied with the speed with which the administration currency bill was being handled at the capitol and declared his confidence in the ultimate passage of the Glass bill with the changes proposed by the house committee.

The most important changes recommended would permit national banks to continue to use the 2 per cent government bonds for circulation. Other amendments are of minor importance, Senator Owen said.

The senator positively stated that the objections to the government control of the federal reserve would have no effect and that in this respect the bill would be passed by both houses in this form.

HAS GOOD WORD FOR YAQUIS

American Owner of Large Ranch in Mexico Pays High Tribute to Indian Tribe.

"The Yaqui Indians in Sonora and Chihuahua are among the finest races I ever encountered," said James W. Keyes, proprietor of an extensive ranch near Rosario, Sonora. "They are energetic, industrious and of high moral character. The Mexicans have never given them a square deal, and the Yaquis as a consequence have always been implacable enemies of the Mexican government. But the Indians are fair, and I believe that if the United States were to recognize the Huerta government the Yaquis would submit peaceably. In 1889 there was a difference between the Indians and the Mexican government. The Yaquis were up in arms. Father Percivault, a Catholic priest, was using his best efforts to bring about peace. He was selected by the government to act as its emissary to treat with the Yaquis.

"Meantime the head of the Yaquis had sent his son to treat with the Mexicans, and the representative of the Indians was murdered. Father Percivault went into the Yaqui country before the Indians had been acquainted with the murder of their emissary. It was only by strategy that the priest got out of the country alive. The Yaquis have the greatest respect for law and are fair in their dealings, but they will not brook imposition."

Author Started Controversy.

Professor Quiller-Couch recently delivered at Cambridge university a lecture on the authorized version of the Bible. He said that he did not admire Elizabethan prose, and gave credit for the beauty of seventeenth century English to the 47 translators of the Bible. Professor Quiller-Couch's admiration of the St. James version is shared by all, but critics are pointing out that the beauties of the St. James version are found in the earlier sixteenth century versions. "If he will turn to the versions of Wycliffe and Tyndal," writes one man in the Westminster Gazette, "or to that of the Rheims revision, he will find some at any rate of those unnumbered felicities which have become part and parcel of our English tongue." Another correspondent asserts that the "noble style and diction" were certainly of the sixteenth century, not the seventeenth. The new professor, who, it will be remembered, is a novelist, and who holds a chiefly ornamental position at Cambridge, has been convicted of an unguarded—or, to put it harshly, an unscholarly—statement.—Springfield Republican.

Only Siberian University.

Tomsk, the agricultural center of Siberia, boasts of the only university in that country. It was opened 26 years ago, and is so well endowed that tuition fees amount to only $50 a year. At the university hospital may be obtained the only Pasteur treatment for mad dog bite that is available in Siberia. As the disease is rife, this is no small blessing to the settlers. A great institute of technology and school of mines, too, is to be found at Tomsk. It has an enrollment of 1,700 students, many of them from the far-away region of the Caucasus, in southern Russia. American engineering textbooks are largely used in the institute.

Would Operate on Condemned Men.

Speaking in Paris again of his experiments, Dr. Alexis Carrel of New York, Nobel prize winner, said: "I can only operate on the heart, lungs and arteries of an animal. I have had many struggles with the measures which the American anti-vivisection societies have been taking. Why electrocute a condemned man? Why not give me his body? The condemned man will not suffer any more and he will render a last service to society, which he has dishonored."

NEW ADVERTISING RATES.

September 1st a new advertising rate card will be in effect on The Democrat-Forum. A slight advance has been made in nearly all classes of advertising. This has been necessitated by advances in prices for nearly everything entering into the cost of making a paper, and also by the fact that increased circulation means increased cost for output which must partly be borne by the advertiser. Since the rates now in effect were made the circulation has increased at least 50 per cent, while the increase in rates averages only about 10 per cent. Special contract rates for large amounts of space and for regular space advertising made known upon application. The open rates follow:

Display advertising, first insertion, per inch 20c
Each succeeding insertion, per inch 15c
Short locals, each insertion, per word 1c
Headed readers of 60 words or more, per word, first insertion 1c
Each subsequent insertion, per word .....½c
Poultry ads, business and professional cards, per inch per month $2.00

Less than one month charged at regular display advertising rates.

Yearly contracts can be made at a discount from the regular advertising rates. Call us and our advertising man will be glad to visit you.

RAVENWOOD.

We had a nice rain at Ravenwood Tuesday evening. It was a regular downpour for awhile, and will do much good to growing crops for awhile, but we will soon need more.

Early corn is badly damaged already, but the later corn can be much benefited by some good showers.

That bumper crop of wheat is still being threshed and hauled to market. I think very little is being held except for seed. Should the fall season be favorable a very large crop of wheat will be sown in this part of the country.

The good roads enthusiasm has not materialized in this part of the county. I understand the road overseer has not made any effort to organize and is taking no interest in the enterprise. Hot weather and busy season is probably the only excuse.

Our town is improving by putting in concrete crossings on all the streets.

Robert Ross, an old resident, has been quite sick for more than two weeks, with very little improvement.

What They Say About It.

The following is from today's Kansas City Times about the musical attachment to W. W. Linebaugh's car:

The latest improvement to the motor car is a musical attachment that is operated automatically by the movement of the car. A musical genius of Clearmont, Mo., is the inventor of this new appliance, which reels off "Home, Sweet Home" so loudly that it can be heard for a quarter of a mile. Now, what should be done to this young man for adding to the racket of the motor car?

To Enter Auto Races.

Everett Bailey, formerly of Maryville, but now living in Parnell, will enter the automobile races at Albia, Ia., Monday, September 1. It will be a ten-mile handicap race for purses of $250 and $100. Mr. Bailey will drive a Buick, which he has converted into a racer capable of making seventy or eighty miles an hour, and which belongs to Horace Jones of Parnell.

Barnard Has an Ordinance.

Barnard has a city ordinance prohibiting any automobile to stand on Main street longer than ten minutes at a time. This might be all right for cities like St. Joseph or Kansas City, but think of a little jerk-water town like Barnard trying such metropolitan stunts. Why, automobile owners should boycott the town.—Rosendale Signal.

Basket Dinner and Preaching.

There will be a basket dinner at Bedison, Sunday, August 24. Services at 11 o'clock and at 2:30. Special music and songs. The afternoon services will be conducted by the Rev. Claud J. Miller, and the forenoon services by the pastor in charge. All have a special invitation to come, and don't forget to bring your baskets and assist in this great feast.

Todd Elected a Vice President.

Harry C. Todd, manager of the Hanamo Telephone company of this city, wa selected second vice president of the Missouri Telephone association at its meeting held in Sedalia this week. Mr. Todd was also selected as a member of the executive committee of the association. Mr. Todd was in attendance at the meeting.

Home From Portland.

Mrs. William Wallis, Jr., returned Thursday night from a three months' visit with her sister, Mrs. Walker Lee Campbell of Portland, Ore.

A Day in the Country.

Mr. and Mrs. J. A. Croy and Homer Croy of New York went to Bolckow Friday morning to spend the day at the country home of Mr. and Mrs. H. N. Kennedy.

Met With Mrs. Holmes.

The Missionary society of the Presbyterian church met with Mrs. O. L. Holmes Thursday afternoon. Several papers on the Philippines were read and a general discussion held, after which light refreshments were served.

Home From Eastern Trip.

A society note in the St. Joseph News-Press tells of the return of Miss Genevieve Willman from a several weeks' stay in Washington, D. C., and Virginia Beach, Va., in company with Dr. Barton Pitts and family. Miss Willman visited in Maryville early in the summer, as the guest of Miss Ora Barmann.

Visitors Near Clyde.

Mr. and Mrs. O. T. Swearingen and Misses Locie Meris and Venia Swearingen of Morrison, Okla., and Mr. and Mrs. Dan Pierce and Misses Velma and Harma Pierce of Stanberry were visiting at the home of Mr. and Mrs. John Woods, east of Clyde, this week. Mrs. Emma Bishop and son of Jones, Okla., also arrived this week on a visit to Mr. and Mrs. John Woods and family.

Party for Niece and Nephew.

Misses Bernice and Roxie McGinness, daughters of Mr. and Mrs. James McGinness of near Bedison, gave a party Wednesday evening for Miss Chestnut and James Adams of Aurora, Mo., who have been visiting at their grandparents' home during vacation time. Games, music and refreshments were the pastimes. The guests, aside from the honor guests, were Miss Clara Stein and Miss Margaret Weidmeier of Ft. Madison, Ia.; Misses Lida Ambrose, Blanche Erickson, Joy McNulty, Misses Lottie and Eula Kidd, Miss May and Emma Jenson, Messrs. Vern Henson, John and Floyd Ambrose, Dale Partridge, Harry Whitehurst, Will Stein, Alex, Harry and Fred Jensen, Harold Erickson, Robert McGinness and Ova Hall.

Kitchen Shower For Bride-Elect.

Miss Mary Allen, youngest daughter of Mr. and Mrs. R. G. Allen of West Third street, who is to be married in September to Mr. W. J. Enis of Nevada, Mo., was given a kitchen shower Thursday evening by the young ladies of the Alderman-Yehle store, where Miss Allen was employed for a time. Mrs. Allen served a luncheon to the guests after the shower, and the usual fun that accompanies an event of that nature, then the guests took the bride-elect to the picture show at the Empire and witnessed very appropriate scenes to end the evening's pleasure. Those in the party were Miss Allen, Misses Gertrude and Georgia Condon, Miss Agatha Kirch, Miss Kate Willis, Mrs. Gay Leeper and Fredda Josephine Brown of Kansas City, Miss Katherine and Teresa Yehle, Miss Nelle Campbell, Mrs. Zetta Broyles, Mrs. Verna Murphy, Miss Emma Crandall, Miss Marie Cook, Mrs. Lois Long and Gladys Long.

Surprised Her Husband.

Mr. Ferdinand Townsend's birthday anniversary was on Thursday. When he went home to supper Thursday evening he received unusually happy attention from Mrs. Townsend, and thinking she was only endeavoring to make the day a little different in the routine of a busy business man's life, which she was, and to keep him from thinking he was getting old as Methuselah, which a young man is apt to do on a hot day, he accepted everything in the manner in which it was given, consented to go car riding after supper and make a call on Miss Susie Ellison and Mr. George Robb Ellison. After a little while they were summoned home, only to find a party of friends there ready to make merry the rest of the evening. A visit to the picture show was the first thing on the program and Mr. and Mrs. Townsend and their guests were no sooner seated than a slide was thrown on the screen by Mr. Kuchs wishing Mr. Townsend many happy returns of the day. The whole evening was a very pleasant surprise to Mr. Townsend.

Will Locate Here.

Mr. and Mrs. G. A. Miller and children, who have been making their home at Fredonia, Kan., arrived in Maryville Friday noon and will make their home here.

SAVINGS DEPARTMENT

The officers of the Nodaway Valley Bank wish to announce the establishment of a SAVINGS DEPARTMENT in connection with this institution.

This department will take care of your savings, paying interest semi-annually, and render every assistance in cultivating the habit of saving money.

No one need be ashamed to save money. No one need be ashamed to start with as little as a dollar. The habit of saving money, if persisted in, is bound to make for financial independence and to make a good citizen of the "man with the habit" as well.

You may start an account in our SAVINGS DEPARTMENT with a dollar and make deposits from time to time. No red tape. No formality. Simplest thing in the world, and think what it means.

The SAVINGS DEPARTMENT of the NODAWAY VALLEY BANK will open for business on

FRIDAY, AUGUST 22, 1913
Hours 9 a. m to 3. p. m.

On all accounts opened before September 1st, 1913, interest will be allowed from August 15th, 1913.

WILSON AT WORK ON A MESSAGE

President Will Tell Country All About Mexican Situation.

DETAILS OF NEGOTIATIONS.

Note to Huerta Government and Its Reply to Be Presented—States There Has Been No Exhibition of Partisanship—Praises Republicans.

Washington, Aug. 21.—President Wilson is at work on a special message which he propably will read to both houses of congress Monday, relating in detail the negotiations which have been conducted through his personal representative, John Lind, with the Huerta government in Mexico.

It is the president's intention to give congress a comprehensive narration on what has been attempted in Mexico by Mr. Lind. He will also give his conception of the policy pursued by the United States toward Mexico.

The president's hope is that the situation will disentangle itself, though he believes it will take a little time to dispel certain illusions possessed by the Huerta government as to the attitude of the American people and congress. The president let it be known the question was not a party one and that Republican senators had shown an admirable spirit in his conferences with them and not the slightest partisanship had been exhibited. The president believes the debate in congress will serve to refute the contention of Provisional President Huerta that the administration's policy toward Mexico is not supported by all political parties.

Penrose's Resolution.

The first refutation of this Huerta supposition came in the senate when prominent Republicans vigorously upheld the hands of the president. The expressions of confidence in the wisdom and good faith of President Wilson were made by several Republican leaders in succession, after Senator Penrose (Rep., Penn.) had introduced a resolution to require the president to place American troops in Mexico to protect American lives. No action was taken on the resolution and though Senator Penrose declared that the sending of troops could by resolution be decreed not unfriendly to Mexico, the view at the White House and state department was that such a move in effect would be an act of war.

Incidentally it was learned that since the presentation of the Huerta reply Monday, which has now been received in full at the state department, nothing of significance has occurred in conferences between John Lind and Senor Huerta. Mr. Lind has not abandoned hope, however, of convincing President Huerta of the argument made in the first American note, and there is no intention to recede from the attitude then taken.

CAMINETTI TRIAT TUESDAY

Companion of Diggs Will Face Jury Next Week.

San Francisco, Aug. 22.—F. Drew Caminetti, companion of Maury I. Diggs in the flight from Sacramento to Reno with Marsha Warrington and Lola Norris, will face a jury next Tuesday in the same court room in which Diggs was convicted and attempt to prove that the elopement episode did not render him amenable to punishment for violation of the Mann white slave act.

Special Prosecutor Theodore Roche announced the exact charges or counts of the indictment upon which the government will attempt to convict Caminetti. They are four in number—that he transported or assisted in the transportation from one state to another of Lola Norris for immoral purposes; that he transported or assisted in the transportation from one state to another of Marsha Warrington for immoral purposes; that he induced and enticed Lola Norris to go to Reno for immoral purposes, and that he induced and enticed Marsha Warrington to go to Reno for immoral purposes.

Speer to Attend Hearings.

Washington, Aug. 22.—Federal Judge Emory F. Speer of Georgia, charged with official misconduct in papers filed with the house committee on judiciary, will attend any hearings that the committee may have to take evidence in the case. He telegraphed to Representative Hughes of Georgia, asking that he arrange for his appearance at the proper time. Mr. Hughes immediately conferred with Chairman Clayton of the committee and later notified Judge Speer that he would be permitted to be present with counsel.

Discrimination Is Charged.

Topeka, Aug. 22.—Charging discrimination in freight rates in favor of Kansas City and Omaha and against a number of Kansas towns on certain commodities shipped from Galveston and New Orleans, the state public utilities commission filed with the interstate commerce commission a complaint against sixty-seven railroads.

Official Mexico Silent.

Mexico City, Aug. 22.—Officially Mexico continues silent regarding the negotiations with the representative of the president of the United States, Mr. Lind, although the public has been given to understand that they are yet in progress.

SUMMARY OF CROP CONDITION.

Fruit Growers Report No Damage of Consequence From Drought—A Good Market.

The following is from the Missouri state board of horticulture:

Reports from the following territory are from men who are interested only in giving the facts for the benefit of the fruit grower, and are not from buyers or shippers' associations:

New York reports 47 per cent of last year's crop.

West Virginia, 15 per cent of last year's crop.

Virginia, 60 per cent of last year's crop.

Illinois, 50 per cent of last year's crop.

Oregon, 60 per cent of last year's crop.

Washington, 70 per cent of last year's crop.

Missouri river district, 56 per cent of last year's crop.

Missouri, 40 per cent of last year's crop.

This indicates that Missouri growers should have no trouble in marketing their apples to the best advantage. Growers who have been giving their orchards good attention—and those are, in the main, the growers who are located in districts where frost damage has been comparatively light for the past ten years—will receive as much for this year's crop as for their crop in 1912.

Growers report no damage of consequence from drought. Unsprayed orchards, as usual, show heavy losses from codling moth during July and August. These orchards, however, have little material effect on the total production, as only sprayed orchards are producing considerable quantity of apples for market.

Detroit Vapor Gasoline Stoves

Are entirely different from all others—they are made to use and to give satisfaction.

This is not the complete story of the Detroit Vapor Gasoline Stoves, but it will give you a hint.

If you are in the market for a gasoline stove see us. We guarantee this stove to give satisfaction or we will refund your money.

His Own Rail.

Old Mose was so notorious as a chicken thief that all the thefts in the neighborhood were charged to him. Finally a man in the neighborhood had all his turkeys stolen, and the negro was arrested.

"You stole Mr. King's turkeys?" asked the judge.

"No, I didn't sir," said Mose.

"Well, how was it they were found at your house, then?" continued the judge.

"Well," said Mose slowly, "I'll tell yo', suh. I nevah stole dem turkeys; but las' night I went 'cross Mr. King's pastah an' seen one of my rails on de fence, so I jus' brought it home. And, suh, when I come to look dar was nine turkeys settin' on de rail!"

Not Supposed to Get Drunk Here.

One of the Maryville papers says a man, Tom Ashbrook, was arrested for shooting up the road, and further adds that the man was drunk. Now, Maryville has a saloon, a place where men take a drink and then go about their business. If it was in some dry town that this drunk was caught it might be believed. But in a town where there are no keg parties, men never are supposed to get drunk.—Blanchard Herald.

The Shoemaker-Bovard Transfer and Coal Company

Wants your orders for Coal, and we want them early. Every advice from railroads and operators lead us to believe there will be a car shortage and that coal will be slow coming forward. Hence the early orders will have the advantage. The prices are low now, but will advance soon. Just take a few minutes and talk coal to me.

Yours truly,

THAW'S HEARING IS CONTINUED

May Submit to Deportation if He Can Say Whither.

Sherbrooke, Que., Aug. 22.—Until Wednesday of next week, barring unforeseen developments, Harry K. Thaw will remain in the Sherbrooke jail. On that day he is to be arraigned in the superior court on a writ of habeas corpus. Between now and that time his battery of Canadian lawyers hopes to perfect plans not to thwart deportation, but to submit to it gracefully—to a point selected by Thaw.

This in brief was the status of Matteawan's fugitive, arrested on Tuesday near Coaticook, Que., and committed to jail here on a defective warrant.

All of the lawyers profess to believe that the minister of the interior will accede to the request that Thaw be permitted to "nominate his destination" in return for submitting without further protest to deportation.

Slays So He Can Get Tobacco.

Jefferson, Ind., Aug. 22.—Edward Morton, an inmate of the state reformatory here, stabbed and killed Charles Bartle, another inmate. Morton said he bore Bartle no ill will and that he stabbed him so that he could be sent to the Indiana state prison at Michigan City, where the prisoners are given tobacco.

Lightning Kills Four.

Ozark, Ark., Aug. 22.—Lightning killed four persons near Ozark. The dead: Russell Snow, Mrs. Bert Moore, Frank Kesingler and Sid Harmon.

FIND DYNAMITE AT GAYNOR'S WINDOW

Enough to Wreck City Hall Placed Near Mayor's Office.

New York, Aug. 22.—A deadly charge of dynamite, three whole ten-inch sticks and two halves, with a fuse and detonator, was discovered near Mayor Gaynor's office windows in the city hall. The bureau of combustibles found that the explosive was 40 per cent dynamite, and would, if exploded, have wrecked the city hall.

The mayor was in his office when the dynamite was discovered by a citizen passing through City Hall park. Mr. Gaynor evinced little interest when told of the explosive's proximity and remained apparently undisturbed at his desk while police officers hurriedly drew a cordon about the dynamite to keep back an excited crowd.

The dynamite lay upon a basement door in a recess opening within sixty feet of the mayor's window. The explosive was arranged in a lattice formation, with the two small pieces on top. But a partly burned four-inch fuse, made of gunpowder tightly rolled in a paper cylinder, led to a detonating cap on one of the sticks of dynamite.

Close to the explosive was a piece of Chinese punk and several partly burned matches. The bureau of combustibles experts state that the only thing which prevented a disastrous explosion was the presence of a strip of cotton wool wound so tightly about the base of the fuse that a spark could not reach the detonator. An edge of one dynamite stick was scorched.

FRECKLES

Don't Hide Them With a Veil; Remove Them With the Othine Prescription.

This prescription for the removal of freckles was written by a prominent physician and is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold by any first class druggist under an absolute guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.

Be sure to ask your druggist for the double strength othine; it is this that is sold on the money-back guarantee.
